### MESSAGE FROM GOVERNOR

#### Permanent School Fund

December 31, 1942

To the Honorable President and Members of the Legislature  
Fifty-sixth Session—1943  
State Capitol Building

Attention: Mr. Hugo Srb, Clerk

We submit herewith a copy of a Summary of an Audit of the Permanent School Fund of the State of Nebraska, covering the years from January 1, 1869 to June 30, 1939, as prepared by Ray C. Johnson, Auditor of Public Accounts, at the request of the Board of Educational Lands and Funds. We wish to recommend that a copy of this summary be printed in the Legislative Journal, in order that each member of the Legislature may have a copy for his information.

This report is self-explanatory but we wish to call your attention to one item of \$181,637.73 which represents income from lease rental and penalty interest on Saline lands which is shown as a loss to the Permanent School Fund. Under the provisions of Section 72-502 CSN 1929, this rental should have been credited to the Permanent School Fund. For some reason this has not been done, but instead such income has been credited to the Temporary School Fund. So, while the summary prepared by the Auditor shows this as a loss to the Permanent School Fund, it is actually money which was received and expended for the benefit of the common schools of the State of Nebraska. We believe, however, that in all fairness to the taxpayers of the school districts which contain Saline lands within their boundaries, the law should be amended to provide that such income be credited to the Temporary School Fund, so that such districts may share fully in the apportionment of the Temporary School Fund.

We, therefore, recommend to your Honorable Body that Section 72-502 CSN 1929 be amended to provide that the income received from rental of Saline lands be credited to the Temporary School Fund, and further recommend that your Body ratify the action of former State Treasurers in crediting such income in the amount of \$181,637.73 to the Temporary School Fund.

Respectfully submitted by the  
Board of Educational Lands and Funds

Hon. Dwight Griswold, Governor,  
Chairman Board of Educational Lands & Funds,  
State House,  
Lincoln, Nebr.

Dear Governor Griswold:

Acting on a request made by the Board of Educational Lands and Funds on February 27, 1942, we hand you herewith the summary of our audit and investigation of the Permanent School Fund of the State of Nebraska covering the years from January 1, 1869 to June 30, 1939. Since June 30, 1939, we have made regular semi-annual audits of this fund which is embodied in our semi-annual audit of the office of the State Treasurer. On January 7, 1943, we will have our regular semi-annual audit of this office in your hands and it will show a complete list of all investments of the Permanent School Fund as of that date, together with the present status of each investment.

In this audit, a complete and detailed check was made of all receipts and disbursements as shown by the records, accounts, and books of the State Treasurer. No records could be found prior to the year 1869. The balances shown by the State Treasurer's account on January 1, 1869, was used as a starting point.

Each and every entry as shown by the records of the State Treasurer's office, whether a collection or disbursements was transcribed to our work sheets and when amounts were posted in the aggregate that amount would be broken down so proper credit or debit could be made.

Each and every investment account was also transcribed to our work sheets and each debit or credit carefully checked.

In making up our work sheets, the annual balances, as shown by the State Treasurer, were maintained.

Our work sheets used in arriving at our totals are too voluminous to copy and make a part of this report, but they are intact and are on file in the office of Auditor of Public Accounts for any future reference.

In making this audit we built up the Permanent School Fund by months and then by years, thereby having a check on the balance each month and year as shown in the office of the State Treasurer. We credited this account with each collection effecting, or which under the law, belonged to this fund, that is, receipts from the sale of common school lands, receipts from the sale of Saline lands, also all income from

every source from the Saline land was credited to this account in accordance with the law governing these lands. The records in the office of the state Treasurer will show receipts from income, interest, etc., from Saline lands was credited to the **Temporary School Fund**. We also credited this account with the 5% commission from sale of public lands, receipts from escheated estates, and all judgments in favor of the State.

We are now completing a similar audit and investigation of the Bessey Memorial Fund. This report will be in your hands before January 7, 1943, and I would suggest a similar report be made of the Agricultural College Endowment Fund, Normal School Endowment Fund, Permanent University Fund, and the Soldiers' Relief Fund.

Respectfully submitted,  
(Signed) Ray C. Johnson,  
Auditor of Public Accounts.

**INAUGURAL MESSAGE OF GOVERNOR**

**To the Members of the Fifty-sixth Session of the  
Legislature of Nebraska**

January 7, 1943

Mr. President, Members of the Senate:

You gentlemen have been chosen by the people of Nebraska to assemble here and work in their behalf. I am here as Governor, chosen by the same people, elected for a second term.

Our task is different from that usually confronting a legislature and a governor because our nation is now engaged in a horrible war which, in one way or another, is thrusting its way into the life of every man, woman and child. It completely dominates our thoughts.

These are days of danger—danger not only from the vicious struggle for survival but from the inevitable post-war period when proper readjustment will be threatened by swarms of crackpot schemes.

What can we—the governing authorities of this state—what can we do during a brief legislative session to repel these dangers?

There are signs to guide us.

Two years ago at my inauguration I stated that very few new laws were needed for Nebraska and that my duty was rather to furnish a better administration of the laws we already had. Since then we in the executive departments have worked on that premise. If there were doubts as to its soundness, I think those doubts were washed away by the voters on November Third.

Now again I say, but even more emphatically, we can do the people of Nebraska a real service by just leaving them alone. Our people are busy with crops and livestock, they are busy in factory and business, they are busy with thoughts of fighting sons, husbands and fathers. In the name of common sense, let us rise above this fad of regulation and leave our people free to work and fight for the victory which must be won.

That is my paramount recommendation.

Two years ago we could not know, of course, that within eleven months, war would come to us. Our planning necessarily was based upon what we thought might happen. It was your foresight in creating the defense organization and in establishing an emergency appropriation, which permitted the state to properly function without a special legislative session. I trust the same foresight will continue with the enactment of war emergency measures, effective only for the duration.

So that you would not be delayed in your consideration of this emergency program or in your consideration of such other routine and corrective legislation as I have to offer, these bills have been printed. They are now ready for introduction. My budget recommendations are also ready. This is in keeping with plans of your own Legislative Council which, I believe, has its own legislative program ready for submission. Consequently, you can begin work at once. The avenue is open for a short, business-like session, free from petty squabbles—a session worthy of Nebraska and one of which you as senators may well be proud.

As the session progresses, many other bills will be placed before you from other sources. In considering them I suggest you bear in mind that our state agencies must contemplate assisting in the war effort by the orderly release of all possible manpower. State and municipal construction work should stop. Travel must be held to a minimum. Like other Americans, we in the state's service, must be willing to work longer hours. We ask such performance and more of our fighting men; we cannot shirk it ourselves.

We will also aid in the war effort by keeping taxes at a minimum. People must have opportunity to pay the tremendously increased federal taxes, meet higher living costs and invest in War Bonds. In my judgment, there are better ways of avoiding inflation than by levying taxes, merely to reduce consumer purchasing power.

As you work, remember Nebraska is a great state. We have no state debt of any kind, we impose neither a sales nor income tax, and we are the only state in the Union with such a record. In addition, we have about two million dollars in our general fund, nine million dollars in other funds, and about fourteen million dollars invested in bonds. As a state, we own 1,700,000 acres of land. We have the most beautiful Capitol in the nation—all these paid for in full.

You as Senators, and I, as Governor, have a heritage to uphold; the reputation of a state to keep. But we have even more. I say to you that Nebraska is in a position to become a governmental model for the other states and for the nation itself. To people beset with doubts and uncertainties, we can give sorely needed reassurance by proving that in Nebraska are legislators and executives who are statesmen, voting for what is right even though it be temporarily unpopular; statesmen who trust the people and who can be trusted by the people. In this we must not fail.

When this war is won—and won it shall be—our nation will have a national debt of more than two hundred, perhaps three hundred bil-

lion dollars, blooming in the shadows of an over-stuffed bureaucracy. We will have with us tens of thousands of governmental problem children, the offspring of this bureaucracy, all suckled on red tape and accustomed to giving orders to the people. We will all be tempted by recent habit to look to the government for help with every difficulty that confronts us.

This is not a partisan problem; it is an American problem and it bids fair to become the great American tragedy. We of Nebraska, as Americans, must assist in solving it. The solution will not come easily and it will require foresight and faith, courage and conviction. And the task will be complex because as we cut away the tangled growth of demagoguery, we must be vigilant to preserve the good roots.

We recognize, certainly, that there is important governmental work to be done; that there can be proper planning by public agencies representing the whole people; that society has a responsibility to care for those in real need; that Labor is entitled to fair treatment; that Capital has a right to prosper; that work and industry deserve rewards, but, above all, that in times of peace the individual citizen shall be master of his own destiny.

Under a system of free enterprise, we built here an industrial order which trained the workmen and built the factories which are today saving us and saving the World. In this land of free decision, we have raised the young men who have gone out with courage and faith in their hearts, and with a smile on their lips, to fight the enemy on land and sea, and in the air.

"The American Way of Life" is more than a name, and it must be retained.

So again I ask, what can we—here, this winter—do to make sure Nebraska shoulders her proper share of the current and coming problems?

We must prove that our state, a large unit of government, can be operated in a businesslike, efficient manner; that useless positions need not be created; that appropriations can be wisely made; that Nebraska is fully capable of making progress without making debts. As we keep our standard of government high, we will be living up to our responsibility by setting an example others may wish to follow.

Our people have already shown they know how to do much, with little. Our farms, with scars of drouth fresh upon them, have in one

year, through hard work and sacrifice, made an amazing production record. Volunteers have risen by the thousands to aid in necessary civilian defense work and scrap drives. Our industries, battling shortages, have plunged into twenty-four hour operations without a serious misstep. Surely, we need have no fear that our people lack spirit, intelligent enterprise, or competent self-control.

We can best recognize their accomplishments by leaving them unbothered and unhampered by trivial legislation and new schemes. We can take care of present day emergencies, make necessary corrections, pass an appropriations bill, and permit people to go ahead with their work.

That is our immediate duty. Our swift and efficient execution of it can well serve as a bright beacon in a dark sky.

The committees escorted the state officers from the legislative chamber.

The retiring Lieutenant Governor thanked the members for their courtesies during the three sessions at which he had presided, extended best wishes to the Lieutenant Governor, and requested that Lieutenant Governor Roy W. Johnson be escorted to the rostrum. Senator Ray Thomas was recognized and in behalf of the Nebraska State Fair Board presented a gavel to Lieutenant Governor Roy W. Johnson.

### MESSAGE FROM THE GOVERNOR

#### Collection of Victory Tax

January 7, 1943

To the President, the Speaker, and  
Members of the Legislature.

Gentlemen:

I have received an opinion of the Attorney General relating to the withholding and collecting of the Victory Tax, imposed by the Federal Revenue Act of 1942. A copy of said opinion is attached.

By reason of the opinion of the Attorney General and the urgent necessity for immediate authority to the proper officers of the state and of its various political subdivisions, I consider it advisable to recommend for your consideration a bill providing the authority for the State of Nebraska and its political subdivisions to withhold, collect and remit to the proper officer of the United States the Victory Tax imposed by the Federal Revenue Act of 1942. Copies of such a bill are transmitted to you herewith.

Respectfully submitted,  
(Signed) Dwight Griswold,  
Governor.

**Opinion, Attorney General**

January 6, 1943

Honorable Dwight Griswold, Governor,  
State of Nebraska

Dear Sir:

I have at hand your recent letter asking for an opinion as to the constitutionality of the so-called victory tax, in so far as it applies to employees of the state and as to the authority of the state officials to withhold from the wages of said employees the amount of said tax to be paid to the federal government.

The act imposing the tax specifically includes officers and employees of state and, in my opinion, it is a valid tax which must be paid.

The act further provides that the tax required to be withheld shall be collected by the person having control of the payment of such wages, by deducting such amount from such wages as and when paid. The term "person" as used includes officers of the state or any political subdivision thereof.

I do not believe that congress has the authority to impose such a duty on the officers of the state or any political subdivision thereof without the consent of the state. In view of this situation, for the purpose of co-operating with the federal government in the prosecution of the war and for the protection of the officers of the state and its political subdivisions, it is suggested that the legislature, if it sees fit, pass a bill authorizing the said officers to withhold the victory tax from the wages of the officers and employees of the state and its political subdivisions to be remitted to the federal government.

Respectfully yours,  
(Signed) Walter R. Johnson,  
Attorney General.

**MESSAGE FROM THE GOVERNOR****Republican River Compact**

January 8, 1943.

To the President, the Speaker and Members of the Legislature.

Gentlemen:

Pursuant to and as provided by Sections 46-633 to 46-636, inclusive, C. S. Supplement 1939, the Commissioner appointed to represent the State of Nebraska has negotiated with Commissioners from the States of Kansas and Colorado relative to the utilization of the waters of the Republican River and they have fixed and determined the rights of each of said States to the use, benefit, and disposition of the waters of said stream. The negotiations were participated in by Mr. Glenn L. Parker, appointed by the President of the United States as the Representative of the United States of America, in accordance with Congressional enactment authorizing the appointment of a Federal Representative to participate in such negotiations. The Commissioners and the Federal

Representative have agreed upon and signed a compact, herewith transmitted to you for your consideration.

During the 1941 Legislative Sessions, each of the States of Kansas, Colorado, and Nebraska passed legislation ratifying the compact as entered into March 19, 1941, and subsequent legislation was enacted by the Congress of the United States, ratifying the compact as entered into by the three signatory states. This Congressional Act was vetoed by the President of the United States because of certain provisions contained in the compact that were not satisfactory to the Federal Government. As a result of this veto, there was introduced in Congress, and passed by Congress, a bill authorizing the appointment of a Federal Representative as heretofore mentioned. Inasmuch as the negotiations leading to the formulation of the present compact have been participated in by the Federal Representative, it is not anticipated that there will be serious objection raised by any Federal Department to the passage of the necessary ratifying legislation by the Congress of the United States. The compact, as submitted to you, contains the identical allocations of water that were contained in L. B. 429 of the 1941 Session of the Legislature. The only change has been in certain language of the compact relative to the rights of the United States in the use and control of the waters of the Basin.

I suggest that a bill be introduced approving and ratifying this compact, as provided by the Constitution of the United States, the State of Nebraska and the laws thereto.

Respectfully submitted,  
(Signed) Dwight Griswold,  
Governor of Nebraska

Mr. Carmody moved that the Clerk dispense with printing the Compact in the Legislative Journal.

Mr. Mischke moved to amend Mr. Carmody's motion by adding that a mimeographed copy of the Compact be placed on the desks of the members.

The motion as amended prevailed.

Dear Sir:

In an order entered by the Supreme Court on April 20, 1942, certain Rules of Practice and Procedure for the courts of Nebraska were adopted and promulgated and the court has directed that I report the same to the Legislature. At page IX of this volume will be found a copy of an order of the court which recites in detail the procedure followed by the court in the preparation and final adoption of these rules.

As a service to the bar as well as to the general public a law publisher has printed pamphlet copies containing the same material as the volume which is now delivered to you and the clerk of this court will make them available to members of the Legislature in whatever manner you feel will best accomplish the purpose of informing members of your body as to the scope and contents of the rules.

#### **BUDGET MESSAGE OF GOVERNOR DWIGHT GRISWOLD**

**Delivered to the Fifty-sixth Session of the Legislature**

**of Nebraska, January 12, 1943**

Mr. President, Mr. Speaker, Members of the Senate:

With our economic and social standards influenced by the tide of the war, planning for the wise appropriation of funds for proper functions of state government is difficult. I have found it so in the preparation of my budget recommendations and I am sure you will find it so as you proceed with the task of setting up the appropriations.

Even after making allowances to permit comparison of our pres-

ent scope of government with the limited state functions of 25 years ago, the job is more difficult than it was during World War I. It is more complicated now, because that conflict did not so directly or continually affect the private lives of our citizens, the operations of our businesses, industries and farms, nor the activities of our local and state governments as does the present world struggle. Despite these complexities, however, I am confident that with care, we can appropriate wisely.

During the summer and fall of 1942, Tax Commissioner Brady visited all of the State institutions except the Prison Farm at Genoa, the Girls' Industrial School at Geneva and the Women's Reformatory at York. He will be available to discuss with you the conditions of the state's physical plants.

The Budget submitted herewith largely speaks for itself, but there are several items and specific problems, to which I wish to direct particular attention.

#### **Personnel Problems**

Like other employers, the State of Nebraska has had personnel problems during the past two years. It is a common and candid observation that the state has never paid high wages. As the general need for competent workers has increased, the state, as an employer, has felt the effect of competition willing, and able, to pay more.

To offset this loss in personnel, it has been necessary to allow increases in salaries to many people working for the state but even as we have handled the problem, there has been entirely too great an employee turnover.

In a great many departments the number of employees has declined due to a decrease in their activities. I cite the record of the Department of Roads and Irrigation as a strong example. During the period beginning February 1, 1942, and ending November 1, 1942, the number of regular employees of this department declined from 876 to 688. The total payroll dropped from \$120,000 to \$99,000 even though some individual salaries were increased during the period.

There is reason to anticipate a continuation of this trend in many departments during the next two years, and we must plan accordingly.

I assure you that we are not keeping anyone on the state payroll merely that they may draw a salary, and I do not know of a single person working for the State of Nebraska who is not doing a full day's work for the salary drawn. We are hoping, of course, that before a year has passed, this nation will again be at peace. It does not appear possible, at this time, however, and we must make our plans accordingly.

### No Construction

It appears that no construction will be possible until the war is over. A letter from Donald M. Nelson, Chairman of the War Production Board, dated Dec. 31, 1942, explains the necessity of using all possible manpower and construction material in the war effort. I quote the following from this letter:

"I am, therefore, asking you as well as the Governors of the other states to use your influence with the Legislature of your state and with the county and city governments within it, to restrain as far as it can possibly be done, any new construction during the year, 1943."

I feel that it is our solemn duty to cooperate in such a program. No construction of any kind is provided for in this budget except the very necessary repair of one roof at a cost of \$3,700. Our state buildings are otherwise in sufficient repair to operate efficiently for another two years without additional construction. We are fortunate that work done during recent years makes this possible.

### Old Age Assistance

A year ago, when rationing of tires and automobiles was inaugurated, it appeared that reduced highway travel and the resulting decrease in gasoline tax revenue feeding the State Assistance program, would necessitate a special session of the Legislature.

As the months passed, however, three factors figured prominently in adjusting this pending difficulty without legislative action:

First, instead of tobogganing to a fearful level, in 1942 income from the state's five-cent gasoline tax dropped only \$520,000 below the all-time record collection established in 1941. Since one out of every five cents collected goes for assistance, this decrease meant assistance income from state gasoline tax was reduced only \$104,000.

Second, income from liquor taxes increased sharply, offsetting the amount the assistance program lost in gasoline tax revenue. A great deal of the liquor tax increase, however, resulted from a bookkeeping change in the law made by the 1941 Legislature, and from advance buying stimulated by an increase in the Federal liquor tax but even so it is reasonable to assume liquor tax revenue will remain approximately at its present level during 1943.

Third, improved administration and better Nebraska economic conditions brought a decline in the number of assistance recipients.

The following figures will show the change which has taken place on these rolls during the past three years.

**Old Age Assistance**

December, 1939 .....	27,256
December, 1940 .....	28,506
December, 1941 .....	29,643
December, 1942 .....	28,450

**Aid to Dependent Children**

December, 1939 .....	11,688
December, 1940 .....	12,618
December, 1941 .....	12,789
December, 1942 .....	10,300

It will be noted that during the past year there has been a real decline and this has permitted a larger average payment to partially meet the increased cost of living, and still maintained a cash balance. This balance on January 1 was \$1,054,000, state funds eligible for matching with federal funds on an approximate dollar for dollar basis.

With prudent use of this balance, it is my belief that present revenue sources are sufficient to meet the needs during 1943. Our experience with gasoline and liquor revenues during the past year proves their range cannot be accurately forecast. The best course, it seems to me, is to continue as in the past until change becomes necessary. That time may arrive next winter, and if so, it can be met by a special legislative session. Certainly, it would not be sensible for this Legislature to remain in session, merely waiting for time to reveal the exact need.

For several years, the state assistance expenditures have been approximately ten million dollars, half of which is furnished by the state and half by the federal government.

It is expected that during the calendar year, 1943, the state's share will come from the following sources, without any change in the law:

Unexpended balance, Jan. 1.....	\$1,000,000
Liquor tax .....	1,600,000
Head tax .....	800,000
Gasoline tax .....	1,600,000
<b>TOTAL.....</b>	<b>\$5,000,000</b>

We thus have adequate, matchable state funds in sight to assure continued operation of the assistance program for about a year and I give you my pledge that if these funds dwindle, I will call you in ample time for action.

### State Institutions

Only through good planning and close cooperation has the State Board of Control been able to avert disrupted operations. Food costs have shot upward and wages have increased. Meanwhile, the Board has shouldered the responsibility of bringing improved treatments and methods to our mentally and physically handicapped.

You will be interested to know that the Kenny method for treating infantile paralysis is being installed at the State Orthopedic Hospital. In the mental hospitals, new treatments are being adopted as quickly as they are proved worthy.

I am recommending a considerably increased sum be placed at the disposal of the Board during the coming biennium. My hope is the Board will not find it necessary to use all of this amount, but I feel Nebraska has reason to be proud of its institutions and that the humane care they afford should not be jeopardized.

I am asking that the Nebraska Industrial Home at Milford be abolished. Its services can be rendered with little additional expense by the University Hospital in Omaha and the physical properties at Milford left available for other public use.

Two years ago, \$240,000 was appropriated for the addition of a new building at the Norfolk State Hospital. This construction was forestalled by the war and I am recommending that the \$240,000 be made available to the maintenance account of the Board. I feel, however, there is a moral obligation on the part of future legislatures to provide for this building at the first opportunity.

### University and Normal Schools

Pending the outcome of current conferences between University of Nebraska and Federal authorities on possible use of the University in the war training program, I am recommending an appropriation from property tax funds identical with that allowed two years ago. I trust that before your deliberations are completed, these conferences will have cleared the way for a determination of the University's needs and that full information can be submitted to you.

I am recommending an increase for the College of Medicine and the University Hospital of about \$70,000. The College is now operating on a twelve instead of a nine months' basis, enabling medical students to complete the former four-year course in three years.

So that grain improvement work and research can be carried out, I am recommending an increase of \$10,000 for the Agricultural college. In the past, this work has been financed privately through the Nebraska Grain Improvement Association, but since it involves a co-operative testing program to adapt various crops to different soil types in Nebraska, I feel it is a function in which the College should take the lead.

Our four state normal colleges are in a position similar to that of the University in that it is difficult to foretell the effect that war will have upon them. Their enrollment is down radically from what it was two years ago. It seems likely that they will be forced to consolidate courses, release some instructors and prepare generally for further inroads of the war.

In the light of the uncertain immediate future I am recommending that their budget remain on the same basis as was set up two years ago. This recommendation contemplates increases in the salaries but a reduction in the number of instructors.

The appropriation for the state normal college at Wayne deserves special attention. Through years of careful planning, the school has accumulated a cash fund of more than \$40,000, a balance far greater than held by the other three colleges. I understand that Wayne authorities accumulated this balance hoping to build an athletic stadium.

At this particular time such construction is out of the question and my budget calls for a reduction of about \$40,000 in the property tax appropriation for the school at Wayne, and the appropriation of the accumulated cash fund balance in exchange. To be fair to the Wayne College, however, the State should appropriate the funds necessary for the stadium when such construction work again becomes possible.

In considering the Wayne situation, it must be remembered that so-called "Cash Funds" are the property of the State, just as are "Tax Funds" and that they accumulate usually because "Tax Fund" appropriations are larger than necessary.

### **The State Fair**

My budget is submitted on the assumption there will be no State Fair held during the coming biennium. The fair management presented the 1942 fair as the last for the duration and it seems most unlikely that a State Fair would be patronized in 1943 or in 1944.

### **Highway Funds**

I do not favor the diversion of any more of the gasoline tax now used for highway purposes. We have an accumulation of about \$2,000,000 resulting primarily from the stoppage of practically all new construction. It is doubtful if this balance will increase greatly in the future as maintenance will consume most of the income.

This accumulated sum, and more too, will be needed when highway traffic is again fully resumed and construction work is started. Certainly, it should not be diverted from its intended purpose.

### **Emergency Fund**

Considering present conditions, it probably will be advisable for you to appropriate a fund for special emergencies which may arise. It was such an appropriation two years ago that enabled us to carry on the work of the defense organization and save the trouble and expense of a special legislative session.

Since the expenditure of such an emergency fund probably would be placed under my direction, I feel that the decision as to its creation and the amount properly rests with the legislative rather than with the executive branch.

### **The Permanent School Fund**

Already before you is a report from the Board of Educational Lands and Funds enclosing a copy of the audit of the permanent school fund as made by the State Auditor. This audit shows that between 1870 and 1939 there was created in the permanent school fund a deficiency of about \$685,000.

Of this total, \$181,000 is really a bookkeeping shortage. This amount of money was received by the state as rent on certain saline lands transferred to the state by the Federal government.

Under the law, these rentals should have been credited to the permanent school fund but since 1893, through error, they have been placed in the temporary school fund and remitted to the school districts of the state.

In other words, the school districts over a period of years have received for direct expenditure \$181,000 which should have gone to the permanent school fund to be invested for their benefit.

I recommend that you provide that the income from these saline

lands go into the temporary school fund, and that you legalize what has already transpired.

With this change, the deficit in the permanent school fund would be reduced to about \$503,000. More than half of this was caused by a dishonest State Treasurer about 50 years ago. Another shortage of \$150,000 was caused by an illegal act of the Legislature in 1873. Nevertheless, the deficiency exists.

, I would like to offer this solution. The state now holds many bonds, the income from which is tax free so far as federal income tax is concerned. Since the state pays no income tax in any case, this "tax-free" condition is of no advantage.

I recommend that you give the Board of Educational Lands and Funds authority to sell these tax-free bonds, buying in their place United States government bonds, the income from which would be taxable if held by individuals. By making this shift, the fund will show what might be termed a profit, perhaps equal to the deficiency.

### **The General Fund**

Two years ago a deficit existed in the General Fund of the State and in order to remove it, the appropriations bill provided that certain cash balances be lapsed into the General Fund. These totaled several hundred thousand dollars, and this procedure, together with the payment of delinquent taxes due to better economic conditions, has changed the situation so that the General Fund now has a balance of about \$2,000,000.

I am therefore suggesting in the appropriations bill that the large and unnecessary balances in some of our cash funds be appropriated to the General Fund to be considered as "Unappropriated Miscellaneous Receipts and Fees" in accordance with the terms of Section 77-1007. This is the section which provides the manner in which the state tax levy shall be made, and the use of these cash balances in this manner will reduce the 1943 levy.

We can appropriate these cash balances for specific purposes, but I feel that it is better bookkeeping to lapse the balances into the General Fund and then appropriate from it.

### **Constitutional Amendment**

I am proposing for submission to the people of Nebraska a prospective change in our constitution which will permit the Governor to veto items or parts of items of an appropriations bill.

The amendment would still leave to the Legislature its authority to pass such items over a Governor's veto by a three-fifths majority vote but would require separate votes on each controversial item.

Under the present uncertain constitutional provision, it appears that a Governor can veto items which he himself has submitted in his budget, but he cannot veto additions the Legislature made by a three-fifths vote.

This condition could lead to serious logrolling. Without an amendment such as I propose, the way is open for twenty-six men—four more than a simple majority—to authorize excessive expenditures even if their agreement exists for only one ballot. While it is true no such situation has developed, nor is it likely to develop at this session, the fact remains that the loophole is there and should be corrected, to forestall some serious difficulty in the future.

As I stated at the outset of this message, the preparation of this budget has been a difficult task because of the uncertainties of present conditions. Certainly no one can see very far ahead. All we can do is to make our decisions on the basis of information now available.

It is my best judgment that a war economy will prevail in our nation for two more years and I have drawn my budget recommendations accordingly.

I assure you that whatever responsibility you leave with me will be used to the best of my ability in the interest of good government here in Nebraska and in support of our nation's war effort. To you I pledge my utmost co-operation; from you I expect good counsel.

As required by Section 81-313, Compiled Statutes of Nebraska, 1929, I am submitting bills for appropriations as recommended in this budget.

Respectfully submitted,  
(Signed) Dwight Griswold,  
Governor.

**LEGISLATIVE BILL 74.** Placed on General File with amendments.

Standing Committee amendments to L. B. 74:

1. Amend pages 2 and 3 of the bill by striking all of section 1 and substituting the following in lieu thereof:

Section 1. That section 37-406, C. S. Supp., 1941, be amended to read as follows:

37-406. (1) It shall be the duty of every person who owns or controls, or who may hereafter own or control any dam or other obstruction, except the uppermost dam, across any watercourse within the jurisdiction of the state, to erect or cause to be erected, in connection with such dam, or obstruction, a durable and efficient fish way, so that fish in such watercourse may have free access around, over or through such dam or obstruction. Such dams, obstructions and fish ways built or erected therein shall be kept in good repair by the person owning or controlling the same, so as to at all times permit the passage of fish around, over or through the same. In case the owner or person operating or using any dam or other obstruction, except the uppermost dam across any watercourse in this state shall fail or refuse after ten days' notice in writing by the Game, Forestation and Parks Commission, to construct or repair a fish way, the commission may construct or repair the same and recover the cost thereof in the name of the State of Nebraska from the owner of such dam or obstruction, in any court of competent jurisdiction. No owner or party in control of any dam shall be required to construct a fish way in such manner as to endanger the permanent durability of such dam or to impair the usefulness thereof, and every owner of such dam shall, after the construction or repair thereof by the state and after the payment of the cost thereof, be entitled to receive a certificate from the commission to the effect that such fish ways have been constructed or repaired in compliance with the provisions of the law. The commission shall determine the location, character and kind of fish way to be built in dams or obstructions where none exist, and in case any differences arise between the department and the owner of a dam or obstruction over a watercourse within the state, with reference to such questions, or with reference to the impairing of the usefulness of such dam by the construction of fish ways therein, the same shall be submitted to a board of arbitrators, one to be chosen by the commission, one by the owner of such dam and the third to be chosen by the two, or if they are unable to agree, then by the Governor of the state, and the decision of the three arbitrators shall be binding upon the commission and the owner of such dam or obstruction. where such impounded water is returned to the bed of the stream, to make such provision as may be necessary that sufficient water shall be returned at all times to the bed of the stream or river below such dam or obstruction as to preserve fish life in such stream; Provided, however, this act shall not apply under conditions of unusual circumstances resulting from natural causes which make the fulfillment impracticable; and provided, also, that every person owning or controlling such dam, shall open and close gates or locks at a rate slow enough to protect the water below from a sudden flushing or sudden decrease in water flow, which would be detrimental to the fish and their habitat, when mechanically possible.

(2) The Game, Forestation and Parks Commission shall have the supervision over the enforcement of this act, and shall investigate all

complaints and make such orders as may be necessary and proper to carry into effect the provisions hereof.

**MOTION—To Dispense with Reading**

Mr. President: I move that the reading of the report of Committee on Legislative Administration be dispensed with and that it be printed in the Journal.

(Signed) Klaver

The motion prevailed.

**SELECT COMMITTEE REPORT****Council of State Governments**

Mr. Speaker and Members:

Through your courtesy I was permitted to attend the Sixth Session of the Council of State Governments at Baltimore. This was my first attendance at a session, and, accordingly, I have no basis of comparison with prior sessions. It was evident that almost the sole interest was centered about the war and its impact on our governmental structures, state and federal. The very clear purpose of the management was to bring the representatives of the states into as immediate contact with the management of the war as possible.

A mere listing of the roster of persons appearing on the program will indicate this objective. From the staff of the federal agencies were:

Robert P. Patterson, Undersecretary of War;

Donald M. Nelson, Chairman War Production Board;

Mr. McNutt, War Manpower Commission;

Mr. Jeffers, Rubber Administrator;

Dean Landis, Director Civilian Defense;

Mr. Eastman, Office of Defense Transportation;

John G. Winant, Ambassador to Great Britain;

Francis Biddle, Attorney General of the United States;

James E. Murray, United States Senator from Montana and  
Chairman of the Senate Committee on Small Business.

Harold L. Ickes, Petroleum Administrator, was the only speaker listed who failed to appear. He sent one of his deputies.

From the executive departments of the states were Governor Stassen of Minnesota, Governor Saltonstall of Massachusetts, and Governor Broughton of North Carolina.

The legislative personnel had no formal place on the program.

I believe it to be a fair characterization of the Council of State Governments to say that its purpose is to protect the sovereignty of the states against federal encroachment by a program of cooperation calculated to obviate the extension of federal jurisdiction by the effective utilization of the state and local governments.

Inasmuch as war is a national affair, and, by its very nature, and under conditions of modern warfare even more insistently and emphatically, calls for centralization of power and for the almost unrestrained and dictatorial exercise of the centralized power by the Chief Executive of the nation in his capacity as Commander-in-Chief of the armed forces, the Council is, for the moment, limited to cooperation with the federal government in such ways and in such areas as that cooperation may contribute to national unity and strength. Beyond that, is the manifest propriety and duty to so function and to so plan as to obtain, when war ends, with promptness and completeness, without impairment or diminution, the sovereignty vested by our Constitution in the states.

One imperative condition precedent to the fulfillment of that destiny is the full utilization by the states during the emergency of all of their powers, all of their governmental organization, in an intelligent and coordinated program. There must be no valid assertion that the federal government was required, in any area, to assume jurisdiction because the states failed.

It is only fair to note that this assembly, in sending only one legislative delegate, could not have representation on all committees.

Two committees seemed to have the major attention at the session,—the Committee on Manpower and the Committee on Small Business. Your representative was permitted to have membership on the Manpower committee and, within that committee, on a smaller group charged with the task of framing a policy. Your representative was also permitted to sit with the Committee on Small Business.

The outstanding issue before the Council of State Governments was Manpower. A great deal of the attention given by the representatives of the federal government, in one way or another, made

its contribution to the general body of information in the field of Manpower.

As a nation we face the disagreeable fact that we desire to do more in a short period of time than we have manpower to accomplish. (As a matter of definition, it may be noted that Mr. McNutt holds that Manpower "embraces" women.) Faced with this disagreeable fact, there must be a determination: First, how large an armed force can be supplied with food and munitions: And, second, what help can be recruited to fill the ranks in industry and in agriculture left vacant by the entry into the military service of the cream of our manpower?

If we were dealing with food and munitions for our own fighting forces, this problem could be solved within some reasonable approximation. But the lend-lease program poses an equation where one of the factors is not only unknown but undeterminable. Military plans are prepared by our Allies in full reliance upon our promises, express or implied, that this nation will supply food and armament. Those commitments will test American productive capacity far beyond any presently realized output. To this is added the inevitable task of supplying food to an indefinite number of millions of human beings in the countries to be liberated by the allied armies.

There is no present evidence that anything like a full realization exists as to the magnitude of the food problem thus presented. It seems to be assumed that if the output of planes can be doubled in 1943, so can the food supply. There is still a disposition to place responsibilities on local draft boards to assure the nation against depletion of agricultural manpower. Mr. McNutt blandly asserted before the Assembly that local draft boards have had power from the beginning to keep essential farmers on the farm. It does not seem to be within the field of administration thinking that agricultural manpower has been and is being reduced both by selective service and by the recruiting of industry to a point which presents a dire threat not only to our domestic food supply and the supply to our own fighting forces but, also and more expressly, to the inevitable demands of lend-lease and of liberated peoples. They do not seem to comprehend that when a draft board, in an area where all are farmers, is called upon to supply a specified number of men, they have no choice except to send farmers. Nor do they seem to sense that farm boys will not beg to be "deferred" as a favor to them. They will leave the farms and enter the armed forces until responsible agencies of government make it crystal-clear that they serve their nation best by remaining in the forces charged with the responsibility of providing food supplies.

It is and must be recognized that the size of our fighting forces

is determined, and must be determined, by the military experts. They must, however, obtain from other government services an intelligent estimate of available food supply and of the conditions precedent to an effective program of increased agricultural production. It has been assumed that industrial output is limited only by available material. Manpower is taken for granted. The recruiting by industry goes forward on a basis of high wages with an irretrievable loss to agriculture. The rapidity of this movement may be indicated by the statement of Donald Nelson that 1943 will produce twice the number of airplanes produced in 1942, but the weight of the 1943 airplanes will be four times that of 1942. The production, processing, shipping, manufacturing, and delivering of four times the quantity of 1942 calls for an increase in manpower all the way from the mines to the end of the assembly line. The increase in industrial output is properly hailed as an "American miracle," but the realization of the announced goal of 1943 agricultural production with depleted agricultural manpower and depleted supply of farm machinery will be an even greater miracle.

It was the conclusion of the Council of State Governments that a definite, understandable, and clear-cut national policy, covering the total problem of American manpower, must be obtained and obtained promptly; that the Council of State Governments could contribute to the formulation of such a definite policy if its cooperation, in the form of a committee, would be acceptable to the federal government.

Even a few moments of committee discussion was calculated to demonstrate the tremendous dissimilarity in problem in the various regional areas of the nation. The 16 and 17-year-old boys and girls were found valuable in peak periods of harvest in fruit and vegetable areas, and truck gardening adjacent to large centers. Because they are valuable there, many were disposed to take it for granted that they were equally usable and equally valuable in other areas. Representatives of the middle west propounded the thesis that these 16 and 17-year-olds could be fitted into the other activities with greater effectiveness than in the area of mechanized agriculture and food production. Much of confused thinking arises from the understandable limitations imposed by a failure to know all conditions in all places by anybody. The Council is tendering this form of cooperation, and it remains to be seen whether such cooperation will be acceptable. If it is, a committee will be appointed by the Council for that purpose.

The Committee on Small Business heard the development of Congressional inquiry in this field from Senator James E. Murray of Montana. That the war emergency is centralizing activities into a relatively small number of business units is well recognized. How to

reverse that trend or to make better use of the small business is another of the national problems. One is immediately struck by the definitions used in describing small business as distinguished from large business. In general, the classification divides at a point of 799 employees or less being small business, and agencies with 800 or more employees being large business. It is not difficult to see that, applied to the middle west, large business is here substantially nonexistent.

Challenges are made through the committee of the Senate and the House to programs under which war material is contracted for through large units of industry. By and large, the answer seems to be that subcontracting is being encouraged and greatly extended.

My own impression of the discussion was that, aside from subcontracting, there is very little to be expected from the war production for small business, but there is left a margin of production for our civilian economy. In this area there is some evidence that substantial steps can be taken to conserve the smaller business units if manpower for production in this area is not arbitrarily subtracted for the development of military production, and if, in the handling of the rationing program of essential materials, the small business unit is not left to die for lack of effective spokesmen where priorities and allocations are determined. Big business is adequately represented where allocations are made. Small business is not.

Here, again, the states may be able to contribute on a cooperative basis. I sought to elicit from Senator Murray the availability of funds from the federal corporation, established in this area for the development of small industrial units, for the better utilization of agricultural products,—particularly waste products. He was disposed to relegate much of this to a post-war period; but I tried to drive the point that post-war planning must begin now, and personal assurances were given that such developments would have friendly consideration.

That there exists a clashing of ideas as to what is the most important among the agencies charged with their separate responsibilities, was perhaps most dramatically presented when a delegate asked Mr. Jeffers what, in his opinion, was responsible for delay in production of synthetic rubber. With characteristic frankness, Mr. Jeffers responded with a statement,—later the subject of some attempted criticism,—that there are too many army and navy expeditors and loafers in Washington who interfere with production by those who know how. If Mr. Jeffers is so completely smothered by the overwhelming emphasis on the part of other agencies seeking increased production that he has to come up for air and frankly appeal to the American public for his project, one can understand how a small business unit, desiring

the allocation of some critical material for civilian production, must stand hat in hand and await an opportunity to even be heard.

Two things seem to me to be possible in the further development of the program of the Council of State Governments. First, to interpret to federal agencies the diversified problems arising out of attempted application of federal directives unmodified to a nation as diverse as ours, and, second, to bring to the people of the states an interpretation of the necessities which prompt the steps taken by our national government for the effective prosecution of the war. I am disposed to believe that one is as important as the other. If we, as a people, can understand why, much of our current discontent may be, at least, modified; and if federal agencies can understand the absurdities which unified directions produce, when applied to totally dissimilar situations, they may become disposed to recognize that elasticity in regulation is essential for the maintenance of respect for regulating authorities. In both of these directions I believe the Council of State Governments to be a useful agency deserving of continued support and cooperation.

The legislative program submitted by the Council of State Governments will, I assume, have the consideration of our own council, and if any measures, not on our calendar, are deemed essential, bills may be offered by the Governor.

One of the proposals was the subject of discussion among the delegates, namely, the Executive Statutory Suspension Act. Some of the Eastern and New England states have enacted this proposal into state statutes. Delegates from the middle west and from the south, as well as the Pacific coast, expressed disapproval. Speaking for Nebraska, Governor Griswold advised the session that Attorney General Walter Johnson had ruled that the act was violative of our state Constitution. Opposition, generally, was based on the theory that we are fighting against government by executive decree, and the proposal to authorize the executive to suspend statutes is at variance with our war aims since it approves government by executive decree. Those of us taking that position felt justified in assuming that the people would meet any emergency by compliance without compulsion and, if the occasion requires stronger measures, adequate powers are already vested both in the Governor and in our peace officers to mobilize the citizenship of the state.

The list of proposals contains fifteen items, as follows:

1. Executive Statutory Suspension Act - - -
2. Emergency Transportation Act - - -

3. Revised State Explosives Act - - -
4. Revised State Guard Act - - -
5. Notice to Alien Property Custodian Act - - -
6. State Post-War Reserve Fund and Planning Act - - -
7. Local Post-War Reserve Fund and Planning Act - - -
8. Amendment to State Bank Loan Limitation Statutes - - -
9. Child Care Centers (two Acts) - - -
  - (a) Authorization for Day Care for Children's Act -
  - (b) Licensing of Child Care Centers Act - - -
10. Out-of-State Physicians, Dentists and Nurses Act - - -
11. Emergency Aid and Welfare Services Act - - -
12. War Housing Legislation - - -
13. Repression of Prostitution Legislation - - -
14. Weights and Measures Legislation - - -
15. Free Movement of Persons Legislation - - -

In addition, five other proposals are presented as possible variations from the Statutory Suspension Act. These are:

- Civilian Defense Act - - -
- Air-Raid Precautions Act - - -
- Fire Defense Mobilization Act - - -
- Health and Sanitation Areas Act - - -
- Military Traffic Control Act - - -

The majority of these proposals emanate originally from various Federal Departments and Agencies. It is not my purpose to anticipate the action of our own Council with reference to these proposals. Other items will be presented pursuant to the resolutions adopted at Baltimore in the closing session. All of these items should, and I am certain will, receive our earnest and full consideration.

The regular staff of the Council of State Governments impressed me greatly with their efficiency and ability. Mr. Bane, as the prin-

cial executive, demonstrates organizational abilities of the highest character. I am indebted to Mr. Bane and his staff for many courtesies. I am also grateful for the many courtesies extended me by the Governor and Attorney General of Nebraska and to the Legislature of Nebraska for the opportunity to attend.

If further information is desired by the Legislature or by individual members, and it is within my power to supply it, I shall be happy to respond to the best of my ability.

Respectfully,

(Signed) C. Petrus Peterson

**LEGISLATIVE RESOLUTION 7. Abraham Lincoln.**

Introduced by Fred A. Mueller of Buffalo.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF  
NEBRASKA, IN FIFTY-SIXTH SESSION ASSEMBLED:

This is the one hundred thirty-fourth anniversary of the birth of Abraham Lincoln. To him belongs the credit of having worked his way up from the humblest position an American freeman can occupy to the highest and most powerful, without losing, in the least, the simplicity and sincerity of nature. A man of great ability, pure patriotism, unselfish nature, full of forgiveness to his enemies, bearing malice toward none, he proved to be a man above others. He was a statesman of the school of sound common sense, and a philanthropist type and a patriot without a superior.

By this resolution, we, the members, dedicate ourselves to the service of the people of the State of Nebraska, in carrying out the standards set by such a sterling character.

(2) "Articles" mean and include all materials, supplies, furniture, equipment, printing, stationery, automotive and road equipment, and all other chattels, goods, wares and merchandise whatsoever;

(3) "Using Agencies" mean and include all officers of the state, departments, bureaus, boards, commissions, councils and institutions receiving Legislative appropriations.

Sec. 2. This act shall not apply:

(2) To purchases by the University of Nebraska, the state normal schools, or any institutions under the jurisdiction of the Board of Control, except that it shall be the duty of such university, schools and institutions to purchase articles through the Purchasing Agent whenever it is feasible and practical to do so;

(3) To the purchase or use of the products of the labor of the inmates of any charitable, reformatory or penal institution of the state.

Sec. 3. The Purchasing Agent shall be appointed by the Governor, by and with the advice and consent of the Legislature, to serve until the first Thursday after the first Tuesday in January succeeding the second election for Governor thereafter occurring, and until his successor shall have been appointed and qualified, unless sooner removed by the Governor for cause. In case of vacancy in office arising from death, resignation or otherwise, the Governor may fill the vacancy by temporary appointment until the next regular session of the Legislature, when the vacancy for the unexpired term shall be filled in the manner above provided.

Sec. 4. The Purchasing Agent shall receive a salary of three thousand six hundred dollars per annum, payable in equal monthly installments.

Sec. 5. The Purchasing Agent shall have had at least two years' practical experience, in the ten years immediately preceding his appointment, as an executive in a regularly organized purchasing department of some branch of government, either municipal, state or federal, or of some private business firm or corporation. He shall not have been connected, during the period of two years immediately prior to his appointment, with any person, partnership, firm, association, corporation, or other vendor, agent or intermediary, from or through whom any purchases, or contracts for purchases, shall be made by him during his incumbency in office.

Sec. 6. Before entering upon the discharge of his duties, the Purchasing Agent shall take and subscribe an oath, to be filed in the office of the Secretary of State, to the effect:

(1) That he will support the Constitution of the United States and the Constitution of the State of Nebraska;

(2) That he will faithfully and impartially discharge the duties of his office; and

(3) That he is not then, and will not be at any time during his term of office, connected, interested, or otherwise concerned, directly or indirectly, with any person, partnership, firm, association, corporation, or other vendor, agent or intermediary, from or through whom any purchases, or contracts for purchase, shall be made by him during his incumbency in office.

Sec. 7. Before entering upon the discharge of his duties, the Purchasing Agent shall give good and sufficient bond in the sum of ten thousand dollars, with corporate surety authorized to transact business in this state, and conditioned for the faithful performance of his duties and for his compliance with all of the provisions of this act. Such bond shall be approved by the Governor. Neither expiration of term of office nor removal therefrom shall operate as a discharge of the bond, but it shall remain in full force and effect as provided by law. The premium on the bond shall be paid by the state.

Sec. 8. The Purchasing Agent shall appoint such clerical, technical and other assistance as may be necessary to properly administer this act, and fix their compensation and prescribe their duties in connection therewith, subject to existing laws and appropriations made therefor.

Sec. 9. The Purchasing Agent shall have the duty and exclusive authority to purchase all articles used or needed by the state and its using agencies, except the University of Nebraska, the state normal schools and institutions under the jurisdiction of the Board of Control. All purchases, and contracts to purchase, shall be made in the name of the state. The Purchasing Agent shall make an annual detailed report to the Governor of his operations, and shall render such other reports to the Governor as the latter shall request from time to time. The proceedings of the Purchasing Agent shall be open to the citizens of the state, and all records, contracts, orders and schedules shall be open to inspection of any citizen or interested person at all reasonable hours. The Purchasing Agent, in the performance of his duties, shall be subject to the provisions of all laws of this state applicable to the expenditure of public money, not inconsistent with this act.

Sec. 10. The Purchasing Agent, the State Engineer or his nominee, and the Tax Commissioner, shall constitute the Standards and Specifications Committee, which is created to act as a policy making body for the administration of this act.

Sec. 11. The Standards and Specifications Committee shall:

(1) Determine, establish, and, from time to time, change standards and specifications according to the needs of all using agencies so far as their needs are in common, and for groups of using agencies or for single using agencies so far as their needs differ;

(2) Fix physical or chemical formulae and otherwise determine the service, quality, fitness and suitability of all articles tendered or furnished;

(3) Make use for such purposes of the existing laboratories maintained by the state;

(4) Establish a list of other public or private laboratories whose tests and analysis will be accepted;

(5) Fix the fees required to be paid for tests or analyses made in any state laboratory; and

(6) Make rules and regulations, not inconsistent with this act, to carry into effect the provisions thereof.

Sec. 12. The fee required by any state or other laboratory for any analysis or test made by any prospective vendor prior to the award of a contract shall be paid by such prospective vendor. Inspection analyses or tests shall be paid by such prospective vendor.

Sec. 13. Each using agency shall be afforded hearings from time to time, under the rules and regulations prescribed by the Standards and Specifications Committee, to assist in formulating suitable standards and specifications so far as possible. The using agencies, or any of them, however, may veto any standard or specification covering any article required by it to the end that the actual needs of the several using agencies shall be determined by each of them. If any using agency shall veto any standard or specification as determined by the committee, the using agency shall forthwith formulate and submit to the Governor, a written statement of the reason for the veto, and such written standard or specification as the using agency shall adjudge

proper for its need, and, upon the approval by the Governor, the same shall be deemed to be the standard or specification for such article so far as the using agency is concerned, but all articles are to be purchased, nevertheless, in accordance with the requirements of this act.

Sec. 14. In the purchase of all articles, the standards and specifications, determined and established as provided in this act, shall be adhered to and complied with, and no deviation shall be made or permitted without first obtaining the written consent of the Governor in each instance. Any using agency may reject any article delivered or tendered, which fails to comply with the standards and specifications applicable to such article and such using agency.

Sec. 15. Each using agency shall, at the time, in the form and for the periods prescribed by the Purchasing Agent, present to him detailed requisition for all articles to be purchased. The Purchasing Agent shall thereupon present the requisition to the Tax Commission to check the amount of money estimated to be necessary to defray the cost thereof against the appropriation for the using agency, indicating the appropriation or authorization to spend funds against which the proposed purchase will be charged. Such requisition shall be approved by the Tax Commissioner unless it shall appear that the free balance of any appropriation or authorization to spend is not sufficient to cover the charge proposed against it, in which event the requisition shall be rejected as to charges only, and approved as to all others. The Purchasing Agent shall then arrange such schedules or parts thereof as are included in or covered by the approved requisition, for purchase and contract, and for advertising them, in the manner best calculated to attract competition and advantageous price. He shall prescribe the terms and conditions for delivery, inspection, payment and all other details thereof.

Sec. 16. The Purchasing Agent may, by written order, permit purchases to be made by any using agent directly with the vendor, whenever it shall appear to his satisfaction, because of the nature of the article, the price in connection therewith, the quantity to be purchased, the location of the using agency, the time of the use of the article, or any other circumstance, that the interests of the state will be served better by purchasing direct than through the office of the Purchasing Agent. Such permission shall be revocable, shall be issued for a fixed amount only not in excess of one thousand dollars, shall describe the articles to be purchased, and shall be operative for a period not exceeding six months from the date of issue. At the expiration of such time, the authority shall lapse, and an additional direct purchase order shall be requisite for any such purchase. Using

agencies receiving such permission shall report in writing each month to the Purchasing Agent their acts and expenditures under such orders with proper evidence that competition has been secured.

Sec. 17. The Purchasing Agent shall award contracts or orders for purchase to the lowest responsible bidder submitting a proposal for the same.

Sec. 18. Contracts for purchases may be made in any of the following forms:

- (1) For the furnishing of specific articles at specific prices;
- (2) For the furnishing of articles according to the specifications at a fixed rate for a minimum quantity, subject to furnishing of a greater quantity at the same or a lesser rate; or
- (3) For the furnishing of articles according to the specifications without a stated minimum at a rate stated, commonly known as a "price agreement."

The form of the contract to be used in any case shall be subject to the discretion of the Purchasing Agent.

Sec. 19. No articles shall be contracted for or purchased by the state or any using agency except in accordance with the provisions of this act.

Sec. 20. That sections 81-401 to 81-407, Compiled Statutes of Nebraska, 1929, are repealed.

#### LEGISLATIVE RESOLUTION 10. George Washington

Introduced by Harry E. Bowman of Adams.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-SIXTH REGULAR SESSION ASSEMBLED:

That upon this two hundred and eleventh anniversary of the birth of GEORGE WASHINGTON, we pause in our work to pay tribute to his memory.

But for him our country would not have won its independence, or established the union of states.

Unanimously selected as President to guide its destiny through its first trying years, he surmounted all impending difficulties. He skilfully avoided entangling alliances with any foreign state, and then deliberately returned to private life.

As a military leader and wise administrator, he stands above all other men of his time.

His high sense of integrity, order, justice and unwavering faith in an all-wise God, to whom he prayed for guidance, have established an illustrious example for all to follow.

The lawmakers of this state, in regular session on this his natal day, do hereby commemorate the life and achievements of GEORGE WASHINGTON, the father of our country,—first in war, first in peace, and first in the hearts of his countrymen.

Address

Mr. John E. Mekota

### Summary

In his speech, Senator Mekota reviewed the growth of the United States under the free government founded by Washington. He said that it was a miracle in the history of nations. He warned that, while we thrill with the phenomenal growth of the past, we may likewise be awe-stricken when we contemplate a similar expansion in future years. He cited Paris and Prague and Athens as examples of the fact that structures of stone, concrete and steel will not alone make a happy nation.

As our tangible physical structures expand and as we contemplate the growing complexity of our industrial, commercial and social life, we must give more and more attention to the intangible structure that we call our government. Like the sower on the Capitol tower, this intangible governmental structure will stand only so long as it is supported by a firm foundation. This government was built on the foundation of courage, patriotism, solicitude for fellow men, unselfish devotion and ideals in the hearts of the men who framed the Constitution, proclaimed the Declaration of Independence and won the battles in the War for Independence.

Mentioning our complaints at home, while the young man faces death on the battle field, he wondered if, perhaps, from this great distance, we view those battles now raging in Africa as great and glorious spectacles instead of war as it really is. The spirit of Washington carried to the front by our soldiers should be revived at home.

We should answer again with the patriotism and fervor of childhood: "Washington was the Father of our country". And then, each with humility should ask, "Am I a worthy son?"

The following letter was read and on motion by Mr. Mueller is printed herein:

March 1, 1943

Roy W. Johnson, President, and  
Members of the Nebraska Legislature

Gentlemen:

The history of cities, states and nations is the story of men and women who take part in its activities. Natural resources make for the material development, but the evolution of ideals and the application of principles upon which government is established remains with its men and women.

At the fifty-third session of the Legislature, a resolution was unanimously adopted, authorizing the erection in Lincoln of a "suitable memorial" to General John J. Pershing, Nebraska's First Citizen now living.

It is apparent that now, in order to realize on the assets we have, the Regents of the State University should locate and allot the place for the Memorial on the University Campus.

Naturally, the activities that can be carried on under present conditions are limited, but owing to the great importance of reaching the objective in the long run, it would be obviously unwise to not keep the preliminary ground work plan and arrangements actively under way.

City Commissioners and City Councils, along with generous citizens of Nebraska, have greatly assisted the Pershing Memorial Commission in the present planning of the suggested Pershing Memorial in Lincoln, the Capitol City.

We present through you to the men and women of the State this historical pictorial review of the progress made to date by the Pershing Memorial Commission, and the proposed final objective for the Pershing Memorial on the University Campus.

Similar reviews are being sent to Franklin D. Roosevelt, President of the United States; to former President Herbert Hoover; to General John J. Pershing and members of his family; and to other notables.

Respectfully yours,  
Pershing Memorial Commission  
(Signed) Harry R. Follmer  
Secretary.

**PETITIONS AND MEMORIALS**

The following members introduced petitions from their constituents: all members, one, regarding the collection of delinquent taxes; all members, one, favoring L. B. 137.

**REQUEST—For re-reference**

#### MESSAGE FROM THE GOVERNOR

##### Veto on L. B. 73

March 1, 1943.

Mr. President, Mr. Speaker and Members of the Legislature:

Gentlemen:

I am returning without my approval Legislative Bill 73, providing for the payment of a bonus of \$10,000 to the person or firm constructing the first plant in Nebraska for the manufacture of synthetic rubber from Nebraska agricultural products. There is no question but that this bill is intended to serve a worthy purpose, but my judgment is that it is a waste of the taxpayer's money.

From the standpoint of helping the people of this state, there is as much reason to pay \$10,000 to every firm constructing this kind of a plant as there is to pay this sum to the first firm. The use of agricultural products in industry is growing rapidly, but such plants will only come into Nebraska when they are proven to be economically sound and profitable over a long term of years. The payment of this \$10,000 to one firm would not hasten this program.

The Legislature made a constructive move two years ago, providing for the chemurgy project, and the \$10,000 appropriated in this bill could better be used now by adding it to the funds available for the further study of chemurgy, thereby assisting to accomplish the real purpose of this bill.

In my judgment the bonus paid for the development of the first oil well had nothing to do with the production of oil in this state, and I am told that the firm which collected the bonus did not know anything about it until they had started to drill the well.

The consideration of Legislative Bill 73 has assisted in bringing this entire subject to the attention of the people of Nebraska and has thereby served a worthy purpose, but I do not believe that the payment of a bonus would be a proper or worthwhile expense, and I am therefore declining to approve the measure.

Respectfully submitted,  
(Signed) Dwight Griswold  
Governor

2. Amend the bill, pages 2, 3 and 4, by striking all of sections 1, 2, 3 and 4, and inserting the following in lieu thereof:

"Section 1. The following words shall have the following meanings when used in this act unless the context clearly requires a different meaning:

"Department" means the Department of Banking of the State of Nebraska.

"Section" means section of this act.

"Bank" includes banks, savings banks, and trust companies organized under the laws of this state and national banks doing business in this state.

"Registered bank" means any bank which has in effect a registration under section 2.

"Unregistered bank" means any bank which has not registered under section 2 or the registration of which is not in effect because of action taken under section 9.

"Personal loan" means a loan, and the contract evidencing the same, made in an amount of \$2,500.00 or less which is repayable, pursuant to a contract or understanding, in two or more installments.

Sec. 2. (a) Any bank which has registered with the department a statement of intention to engage in the business of making personal loans may exercise, subject to the provisions of this act, the privileges conferred by section 4 (a). Such registration shall be in form prescribed by the department and shall contain an agreement to comply with the provisions and accept the conditions of this act.

(b) No bank, savings bank or trust company shall be eligible for a license or to make loans under sections 45-131 to 45-159, inclusive, C. S. Supp., 1941, as amended by Legislative Bill 176, 1943, after the effective date of this act. Any such license held by a bank, savings bank or trust company shall terminate upon the effective date of this act;

Provided, that such termination shall not affect the validity of any loan contracts made under any such license and every such loan contract shall remain subject to the applicable provisions of such sections until it is paid. The pro rata license fee for the unexpired period of the license year shall be returned.

Sec. 3. (a) Except as provided for in section 4 (a), no bank shall contract for or receive on or in connection with any personal loan a higher rate of interest than would otherwise be permitted by law, whether such higher rate is obtained by making charges on discounts without due allowance for partial repayments of principal, or by taking deposits in lieu of repayments, or by imposing fees or charges pretended to be for investigation, brokerage, service, or other subterfuge, or by any other device or means.

(b) In any court proceeding involving or arising out of a personal loan made after the effective date of this act by any unregistered bank, if the party alleged or purported to be obligated on account of the loan is the prevailing party in asserting any right or defense relating to such loan, he shall be entitled to recover from the opposing party, in addition to taxable costs and expenses to which he would otherwise be entitled, all other costs of litigation, including attorney's fees, actually paid or incurred in asserting or defending his rights on the issues with respect to which he was the prevailing party in whatever amounts the court may find to be reasonable, to be taxed as costs.

Sec. 4. (a) Subject to the provisions of this act, any registered bank may contract for and receive, on any personal loan, charges at a rate not exceeding one and one half per cent a month computed as simple interest on the unpaid balances of the principal amount actually received, and retained by the borrower.

(b) In addition to the charges permitted by section 4 (a), no further amount or exaction shall be directly or indirectly contracted for or received, except:

(1) Lawful fees actually and necessarily paid to a public officer for filing, recording, or releasing an instrument securing the loan;

(2) Taxable costs to which the bank is adjudged to be entitled in judicial proceedings instituted to collect the loan;

(3) Premiums paid to the insurer on policies covering tangible personal property securing the loan. Such insurance shall be only in such amount and of such a nature as is customary and reasonable, having regard to all the circumstances of the loan, and the premium

shall not exceed standard rates. The bank shall not decline existing insurance, where existing insurance is provided by an insurance company licensed in this state, nor require the purchase of insurance from the bank or its representatives as a condition precedent to making a loan. If insurance is procured by or through the bank an executed copy of the insurance policy or certificate of insurance shall be delivered to the borrower within fifteen days.

(c) Except as provided in section 4 (d), charges made under 4 (a) shall not be paid, deducted, or received in advance and shall be computed only as a percentage per month of the unpaid principal balances for the number of days actually elapsed.

(d) At the time the loan is made charges may be computed as a percentage per month of unpaid principal balances for the number of days elapsed on the assumption that the unpaid principal balance will be reduced as provided in the loan contract, and such charges may be included in the face of the note and in the scheduled installments; Provided, that if the loan is prepaid in whole or in part unearned charges shall be refunded or credited to the borrower in full, but such refund need not be made until final payment of the loan contract. Such refund shall be in such an amount that the amount of charges actually retained by the bank shall not exceed the equivalent of the monthly percentage agreed for due performance computed on actual principal unpaid balances for the number of days actually elapsed, except that the charges retained by the bank may be increased to the extent that delinquency charges are computed on earned charges in accordance with the next succeeding sentence. Delinquency charges on any scheduled installment or portion thereof if contracted for may be taken at the monthly percentage agreed for due performance for the number of days delinquent and may be computed on the full amount of the delinquency including earned charges. For the purpose of this act, payment seven days or less prior to date of maturity shall not be deemed prepayment, and payment seven days or less after maturity shall not subject the borrower to additional interest.

Sec. 5. The following provisions shall apply to loans made under section 4 (a):

(a) Every such loan shall be repayable within a period of twenty-four months in approximately equal or declining installments of principal or of principal and charges combined, at approximately equal intervals and may be prepaid in whole or in part at any time. One or more of the periodic installments may be accelerated or deferred when the borrower's chief source of income makes such arrangement necessary, if the note or contract so provides and approximately one half

of the entire amount be payable in the first half of the full period of the loan, and approximately one half of the entire amount in the last half of the full period of the loan.

(b) At the time any such loan is made, the bank shall give the borrower a copy of the note or contract evidencing the loan. Every note or contract evidencing such a loan shall state the principal amount of the loan and the rate of charge plainly expressed as a percentage per month computed on unpaid principal balances.

(c) The bank shall give the borrower a receipt showing the date and amount of each payment made on account of any such loan.

(d) No bank shall take, in connection with any such loan, any confession of judgment or any power of attorney to confess judgment or to appear for a borrower in a judicial proceeding, or any agreement to pay costs of collection or attorney's fees.

(e) No bank shall take a lien upon real estate as security for any such loan.

Sec. 6. No bank shall publish or disseminate any advertisement containing any false, misleading, or deceptive statement concerning the rates, terms, or conditions for personal loans. Every advertisement by a bank which states a charge or a payment schedule for personal loans shall also contain the rate of charge plainly expressed as a percentage per month computed on unpaid principal balances.

Sec. 7. (a) Every bank making loans under section 4 (a) shall segregate all papers and records pertaining to such loans. All such papers and records shall be prepared and kept in such a manner as to make accessible the information required for the annual report and to disclose whether this act is being complied with.

(b) Every bank making loans under section 4 (a) shall file with the department on or before March 15 of each year a report for the preceding calendar year, in form prescribed by the department, covering the annual volume and outstanding amounts of such loans, the gross income from and the expenses properly chargeable to such loans.

Sec. 8. The department shall:

(a) Publish annually a summary of the reports provided for in section 7 (b).

(b) Be responsible for obtaining proper administration of this act and take or cause to be taken such lawful steps as may be necessary and appropriate for the enforcement thereof.

(c) Have authority to make regulations, in addition to and not inconsistent with the provisions of this act, for the administration thereof and for obtaining compliance therewith.

(d) Arrange for investigation and examination of the papers and records pertaining to loans made under section 4 (a), for the purpose of discovering violations of this act or of securing information lawfully required under it.

Sec. 9. If any registered bank persists in violating any provisions of this act after having had prior violations thereof brought to its attention in writing by the department, the department shall, upon ten days' written notice stating the contemplated action and the grounds therefor and after reasonable opportunity to be heard, declare the registration of such bank to be terminated and no longer in effect, whereupon the authority of such bank to make loans under section 4 (a) shall cease. Such bank may not re-register for thirty days after the first such termination, nor for six months after any subsequent termination. No termination shall impair the obligation of any pre-existing lawful contract.

Sec. 10. If a bank violates any provision of sections 4 or 5 in making or collecting any loan made under section 4 (a), no charges of any kind shall be collected on such loan. If any charges have been collected the bank shall forfeit to the borrower all interest collected on the loan involved and a sum equal thereto, and the bank so offending shall be guilty of a misdemeanor and on conviction thereof shall be fined in any sum not in excess of one hundred dollars."

Any corporation, joint stock company, or other association that shall have been twice adjudged to have violated the provisions of sections 59-523 to 59-526, both inclusive, C. S. If, in the judgment of the court before whom such proceeding may be pending the interruption of the business of the defendant corporation, joint stock company, or other association will cause such serious public loss or inconvenience, the court may decline to enter an absolute decree enjoining it against proceeding with its business and may enter a conditional decree, or such decree to take effect at a future time as justice shall require. The court may also, in its discretion, enjoin such officers or agents or servants of such corporation, joint stock company, or other association from continuing in its service, and enjoin any such corporation, joint stock company, or other association from continuing their employment therein, as the case shall seem to require.

# **REPORT—Committee on Agriculture**

Mr. President: The Agriculture Committee, by a majority vote of its members, voted to introduce a resolution so that butter made from Nebraska No. 1 cream may continue to be classed and known as "Standard A Grade".

(Signed) Neubauer, Chairman

## **RESOLUTIONS**

### **LEGISLATIVE RESOLUTION 11. Grading Butter and Cream**

Introduced by Committee on Agriculture, E. M. Neubauer of Harlan, Chairman.

WHEREAS, the Department of Agriculture of the United States has recently revised the standards of quality of butter, substituting for an official point score an alphabetical score of AA, A, B, and C grades; and

WHEREAS, the statutes of Nebraska prescribe grades of cream and require a higher price to be paid for No. 1 cream than for under-grades, and for over twenty years, the butter made from Nebraska No. 1 cream has been graded and sold in the butter markets of the United States as "Standard 90 Score", and is the top grade of butter sold and consumed in this and many other states; and

WHEREAS, the revised grade of butter established by the Department of Agriculture of the United States classifies this butter, made from Nebraska's No. 1 cream. Grade "B", thereby misleading consumers to believe it is a second or inferior grade of butter; therefore,

**BE IT RESOLVED BY THE FIFTY-SIXTH SESSION OF THE NEBRASKA LEGISLATURE:**

1. That the Secretary of the Department of Agriculture is requested to rescind the Revised Official United States Standards for grade of creamery butter which became effective February 1, 1943, and restore the former standards, or to revise such standards so that butter made from Nebraska No. 1 cream may continue to be classed and known as "Standard A Grade".

NOW, THEREFORE, BE IT RESOLVED BY THE LEGISLATURE OF NEBRASKA:

(2) Rules 8(e)(w), 11, 30(d), 33, 38, 39, 43(h) and 43(t) are specifically rejected, disapproved and repealed."

2. Amend page 2 of the bill by adding three new sections, numbered 2, 3 and 4, reading as follows:

"Sec. 2. Rule 14(a) is amended to read as follows:

(a) When Defendant May Bring in Third Party. Before the service of his answer a defendant may move ex parte or, after the service of his answer, on notice to the plaintiff, for leave as a third-party plaintiff to serve a summons and complaint upon a person not a party to the action who is or may be liable to the plaintiff on the original cause of action for all or part of the plaintiff's claim against him. If the motion is granted and the summons and complaint are served, the person so served, hereinafter called the third-party defendant, shall make his defenses as provided in Rule 12 and his counterclaims, except permissive counterclaims, and cross-claims against the plaintiff, the third-party plaintiff, or any other party as provided in Rule 13. The third-party defendant may assert any defenses which the third-party plaintiff has to the plaintiff's claim. The third-party defendant is bound by the adjudication of the third-party plaintiff's liability to the plaintiff, as well as of his own to the plaintiff or to the third-party plaintiff. The plaintiff may amend his pleadings to assert against the third-party defendant any claim which the plaintiff might

A third-party defendant may proceed under this rule against any person not a party to the action who is or may be liable to the plaintiff on the original cause of action for all or part of the claim made in the action against the third-party defendant."

"Sec. 3. Rule 16(a) is amended to read as follows:

- (2) The necessity or desirability of amendments to the pleadings;
- (3) The possibility of obtaining admissions of fact and of documents which will avoid unnecessary proof;
- (4) The limitation of the number of expert witnesses; and
- (5) The advisability of a preliminary reference of issues to a master for findings to be used as evidence when the trial is to be by jury.
- (6) Such other matters as may aid in the disposition of the action.

The court shall make an order which recites the action taken at the conference, the amendments allowed to the pleadings, and the agreements made by the parties as to any of the matters considered, and which limits the issues for trial to those not disposed of by admissions or agreements of counsel; and such order when entered controls the subsequent course of the action, unless modified before or at the trial to prevent manifest injustice. The court in its discretion may establish by rule a pre-trial calendar on which actions may be placed for consideration as above provided and may either confine the calendar to jury actions or to non-jury actions or extend it to all actions."

"Sec. 4. Rule 30(b) is amended to read as follows:

(b) Orders for the Protection of Parties and Deponents. After notice is served for taking a deposition by oral examination, upon motion seasonably made by any party or by the person to be examined and upon notice and for good cause shown, the court in which the action is pending may make an order that the deposition shall not be

taken, or that it may be taken only at some designated place other than that stated in the notice, or that it may be taken only on written interrogatories, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the court, or that secret processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court; or the court may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression."

**LEGISLATIVE BILL 106.** Mr. Greenamyre presented the following opinion from the Attorney General and asked that it be printed in the Journal:

March 8, 1943.

Hon. H. G. Greenamyre  
State Senator  
Senate Chamber  
Building

Dear Sir:

Re: Constitution, Article III, Section  
19 — L. B. 106 — Increasing and  
diminishing salaries during term.

Reference is made to your communication of February 25th, last past, to which you attach a copy of L. B. 106, and in which you ask the opinion of this office as to whether the legislature has the power to increase or diminish the salaries of the Director of Health and the Director of Agriculture and Inspection by an act which will take effect during the term for which those officers were appointed and which they are now serving. You also ask that we cover the question whether the salaries of any appointed or elected official, state or county, may be increased or diminished during the term for which the officer is elected or appointed.

The answer depends upon a proper construction of Section 19, Article III of the Constitution of Nebraska. This section, prior to its amendment in 1920, appeared in the Constitution of 1875 in the following language:

"The Legislature shall never grant any extra compensation to any public officer, agent, servant, or contractor, after the services shall have been rendered, or the contract entered into. Nor shall

the compensation of any public officer be increased or diminished during his term of office."

The last sentence of this constitutional provision was held by the Supreme Court to apply only to officers "created by the constitution". *Douglas County v. Timme*, 32 Neb. 272, 49 N. W. 266; *State v. Vincent*, 46 Neb. 408, 65 N. W. 50; *State v. Stewart*, 52 Neb. 243, 71 N. W. 998; *State v. Plasters*, 74 Neb. 652, 104 N. W. 1150; *State v. Houston*, 94 Neb. 445, 143 N. W. 796; *State v. Moores*, 61 Neb. 9, 84 N. W. 399.

These cases also held that in the absence of any constitutional prohibition, the legislature may change the compensation of any officer, and that such change will apply as well to officers in office at the time of the passage of act changing the compensation, as to those thereafter elected. Accordingly, it was consistently held, under the Constitution of 1875, that the compensation of officers whose offices were created by the constitution could not be increased or diminished during their terms of office, but that the compensation of county officers, and other officers not of constitutional creation, might lawfully be changed during their terms.

The above-quoted constitutional provision was amended in 1920 to read as follows (Constitution of Nebraska, Art. III, Sec. 19):

"The Legislature shall never grant any extra compensation to any public officer, agent, or servant after the services have been rendered nor to any contractor after the contract has been entered into nor shall the compensation of any public officer, including any officer whose compensation is fixed by the Legislature subsequent to the adoption hereof be increased or diminished during his term of office."

Taken by itself, this constitutional provision appears to be clear and unambiguous and to mean exactly what it says, so that there is no room for construction. It is thought by some, however, that because the Supreme Court held that the words "public officer" in the Constitution of 1875 meant "public officer created by the constitution", it must now be construed to mean the same thing, and that the word "officer" in the added language of the new constitutional provision, underscored above, must also be construed as meaning only constitutional officers. If it may be said that there is any ambiguity in the present constitutional provision, it is a latent, induced ambiguity, brought about by the construction placed by the court on the language of the Constitution of 1875.

It is a cardinal rule of construction that every clause, word, and phrase in an act or constitutional provision should be given some

meaning, and that the constitution must be construed, if possible, so as to give force and effect to each provision (*State v. McConnel*, 8 Neb. 28; *Luikart v. Higgins*, 130 Neb. 395, 264 N. W. 903); that the constitution must receive a liberal and general, rather than a strict, construction, in order to accomplish the true will of the people as expressed therein (*State v. Neble*, 82 Neb. 267, 117 N. W. 723); that the terms of the constitution should be construed according to their plain and ordinary meaning unless it is evident that they are used in another sense (*Hamilton Nat. Bank v. American Loan & Trust Co.*, 66 Neb. 67, 92 N. W. 189; *State v. Lincoln Traction Co.*, 90 Neb. 535, 134 N. W. 278); that courts may not add words to the constitutional provision which substantially change the provision as framed (*Elmen v. State Board of Equalization and Assessment*, 120 Neb. 141, 231 N. W. 772).

It is also a well-established rule of construction that the framers of the constitution, and the people who enacted it, are presumed to have known the construction previously placed upon the earlier constitution, and are presumed to have intended, by amending it and adding new language, to effect some change in its meaning.

If it was the intent of the framers of the present constitution, and of the people in adopting it, to continue the prohibition against increasing or diminishing the compensation, during the term, of constitutional officers only, it was wholly unnecessary to amend the section as it stood in the Constitution of 1875. To construe the words "including any officer whose compensation is fixed by the legislature subsequent to the adoption hereof" inserted in our present constitution by the amendment of 1920, as meaning constitutional officers only, is to hold that these new added words have no meaning whatever, and their addition to the constitution effected no change in it. Such a construction is untenable. The only other possible construction is that Section 19, Article III, of the present constitution operates to prohibit increasing or diminishing the compensation, during his term, of any officer holding a constitutional office, or of any other officer, whose compensation is fixed either by the constitution or by the legislature.

Furthermore, if it may properly be said that the language of the constitutional provision under consideration is ambiguous, resort may be had to the proceedings of the constitutional convention which framed the document, as an aid to construction. In this instance, reference to the Proceedings of the Constitutional Convention of 1920 demonstrates beyond question that the intention of that assembly was to accomplish exactly what we have said the language does accomplish. A careful reading of the constitutional debates in connection with this change in the language of the constitution, and other related matters,

clearly indicates that it was the intention of the convention to extend the constitutional prohibition against increasing and diminishing compensation during the terms of officers, and to include in the prohibition not only constitutional officers, but all other officers whose salary should be thereafter fixed by the legislature. **Proceedings of Constitutional Convention**, pp. 131, 684, 970, 979, 1254, 1482, 1569, 2184, 2198, 2568, 2593, 2685, 2823; see also the "Address to the People", *Idem*. p. 2842.

A few quotations will illustrate this. In the first discussion of the proposed amendment Mr. Byrum said (**Proceedings, Constitutional Convention**, p. 970):

"In drawing this proposal it is proposed to make that same provision extend a little further than our courts have decided it extended and I see in that and this provision the same provision that is in the Constitution now, 'the same provision shall apply to all public officers including an officer whose compensation is fixed by the legislature.' In other words, it applies it to the county officers. . . ."

Mr. Ross said (*Idem.*):

"The reason why this (new language) was added was because the Supreme Court of our state had construed that provision of the Constitution as it now exists to apply only to those officers whose offices were created by the constitution itself, and they also held that it did not apply to the officers created by the legislature. It was thought by the proposer of the bill that this constitutional provision should be extended to include all officers created by the legislature. . . ."

"Speaking for myself, at least, I consider that the Supreme Court of the State, having construed what was meant by 'public officers' in that provision as it existed, would adhere to that as applying to a constitutional office, and we then thought it was advisable to extend the provision, as the language here is, 'all public officers including those whose compensation is fixed by the legislature.' And the 'all public officers' clause, referring to the Constitutional officers, as heretofore construed by the Supreme Court, then we add another clause, those whose compensation is fixed by the legislature. That was the idea I, as a member of the committee, had in mind, and the reason we had for that was to prevent lobbying of county officers, in particular, and other officers. . . ."

At another time Mr. Ross (p. 1482) said:

"It was intended when we passed Proposal No. 71 to reach constitutional officers and officers created by the legislature, as you will probably remember. . . ."

Later (p. 2198), Mr. Norton said:

"There is a very material change, and the latter part applies to an officer whose office is created by law or by the Legislature, whereas the old provision simply applied to offices contained in the Constitution."

And Mr. Byrum reiterated his former statements (p. 1482). Many statements of similar import may be found in the published report of the proceedings of the convention, at the pages indicated on a former page of this opinion. They all tend to demonstrate that the entire convention understood the purpose of the amendment to be as we have herein indicated.

Since the adoption of this constitution it has not been construed by the Supreme Court of this state. It was said, however, in *State ex rel. Randall v. Hall*, 125 Neb. 236, 249 N. W. 756, that the constitutional prohibition contained in Section 16, Article III of the 1875 Constitution "was amended and broadened" by the Constitution of 1920. In *Mehrens v. Bauman*, 120 Neb. 110, 231 N. W. 701, the court was confronted with the argument that the statute permitting the county treasurer to keep the money collected as automobile drivers' license fees increased his compensation during his term in violation of Section 19, Article III of the Constitution. The court did not decide the question one way or the other, but did devote considerable time and space to deciding that the act did not increase the salary of the county treasurer.

In view of these various rules of construction, the considerations apparently moving the framers of the constitution, and the reference in *State ex rel. Randall v. Hall*, *supra*, to the "broadening" of the constitutional section under consideration, we are of the opinion that Section 19, Article III, of the Constitution prohibits an increase or diminution of compensation, during the term, of any constitutional officer, as well as of any non-constitutional officer whose salary is fixed by the legislature. This would include any county officer whose salary is fixed by the legislature. It was pointed out, however, in the constitutional debates that it was not intended that the provision should be construed to cover anything "except that which the legislature terms as a compensation fixed by the legislature" (*Proceedings of Constitutional Convention*, p. 979).

The Director of Health and the Director of Agriculture and Inspection are not constitutional officers. *Clark v. Lincoln Liberty Life*

Ins. Co., 139 Neb. 65, 296 N. W. 449. As to them, therefore, it is necessary to determine whether their salaries have been fixed by the legislature since the adoption of the constitution.

The verb "to fix" means to decide definitely, to determine, to direct without variation, to establish invariably, to settle. 26 C. J. 647. A leading case is *Cricket v. Ohio*, 18 Ohio St. 9. There the constitution provided that the general assembly should "fix the term of office and the compensation of all officers". It was held that this language did not require the assembly to fix the sum or amount which each officer should receive, but did require it to fix a rule by which such compensation could be to a certainty determined. Numerous cases hold that a compensation to be fixed by law must be fixed by an amount named in the statute. *Hedrick v. U. S.*, 16 Ct. Cl. 88; *Flagg v. Columbia County*, 51 Ore. 172, 94 Pac. 184. To fix implies "the establishment of a definite rate of pay". *Morse v. Delaney*, 128 Misc. Rep. 317, 218 N. Y. S. 571. Other cases defining "fix" are: *Rackliff v. Peters*, 136 Mo. A. 168, 115 S. W. 503; *Bunn v. Kingsbury*, 3 So. Dak. 87, 52 N. W. 673; *Gist v. Rackliffe-Gibson Constr. Co.*, 224 Mo. 369, 123 S. W. 921; *Durnford v. Patterson*, 7 Mart. 460, 12 Am. D. 514; *Culberson v. Watkins*, 456 Ga. 185, 119 S. E. 319; *In Re McLure's Estate*, 68 Mont. 556, 220 Pac. 527; *McCarthy v. City of Malden*, 303 Mass. 563, 22 N. E. (2d) 104; *Bouvier's Law Dictionary*.

In *McCarthy v. Malden*, *supra*, the statute required the city budget to include sums sufficient to pay the salaries of officials "fixed by law or by ordinance". The plaintiff was employed by the board of park commissioners, but her salary was not fixed except by the park commissioners, which did have authority to fix the compensation of its employees. The court said that this would not amount to fixing the salary by law or by ordinance. Of the ordinance authorizing the park board to fix the compensation, the court said:

"Obviously the statute does not name the amount of salary to be paid, nor does it in any way settle or determine the compensation of such persons. At most it would seem to delegate to the board the power to fix the compensation."

Nowhere does the constitution require that the salaries of the heads of the civil administrative departments be fixed by law, and the legislature has never seen fit to fix them. The only statute with reference to the compensation of these officials is Section 81-103, Comp. St. Supp. 1941, which delegates to the governor the power to establish the salaries of all persons connected with the various departments and of the heads thereof, subject to maximum limitations with reference to the director of the department of agriculture, the com-

missioner of labor, the director of health, the state engineer and the director of insurance. There are also certain county officers whose salaries are not fixed by the legislature, the salaries being left to be fixed by the county boards within certain limits.

Obviously in view of the authorities mentioned above the Director of Health and the Director of Agriculture and Inspection are not officers whose compensation is fixed by the legislature and therefore as to them it is our opinion that the legislature has the power to pass an act which will result in the possible increase or diminution of the salaries of these officers, and that such act may be made effective at any time, whether during the term of such officers or not.

It appears that these officers do hold for terms within the meaning of the constitution. Comp. St. 1929, Section 81-111, provides that each secretary (and by subsequent legislation this applies to each director) shall hold office for a term of two years from the first Thursday after the first Monday in January next after the election of the governor. The power of removal, which lies in the governor, does not alter this situation.

In view of these conclusions it follows that the proposed amendment to provide that the act shall continue in force until March, 1945, when the present law shall again be in effect, would also be valid so far as any constitutional limitation is concerned. It occurs to us however that there are objections to the phraseology of the amendment.

You also have handed us a copy of certain other proposed amendments. The original bill seeks to amend only Section 81-103, Comp. St. Supp. 1941; by the amendment it is proposed to amend the title and the bill, so that the act will amend Section 68-3118, Comp. St. Supp. 1941 also, and will affect the salary of the Director of Assistance. We are of the opinion that if the legislature sees fit to do so, it may amend the title and include in the act the substance of this proposed amendment, without doing violence to any constitutional provision.

Respectfully submitted,

Attorney General

"Sec. 2. All trust funds paid to or coming into the hands of any such county officer shall be deposited within three days after the receipt of any such funds, in a depository designated in the manner hereinafter set out; Provided, however, that where the designated depository is not located at the county seat of such county officer's county, then such county officer shall have thirty days in which to deposit such funds."

"Sec. 3. Depository banks shall be such banks as shall be designated by the county officer, subject to the approval of the county board. The designation of depository bank or banks by the county officer shall be in writing, signed by such county officer and duly filed with the county board; and the approval of the county board, shall be by formal resolution duly recorded in the minutes of the proceedings of the board. The designation of depository bank may be withdrawn at any time by the county officer, by written notice signed by such officer and duly filed with the county board."

"Sec. 4. No county officer as defined in this act shall be liable personally or on his bond for money deposited in a duly designated depository bank in conformity with the foregoing sections of this act, if the following conditions have been met:

(1) Such county officer shall require of and receive from such depository bank as security for the prompt repayment of deposits in

excess of the amount insured by the Federal Deposit Insurance Corporation, either a surety bond in form and with corporate sureties approved by formal resolution of the county board, or, in lieu thereof, a pledge of (a) bonds, notes, certificates of indebtedness and treasury bills of the United States government of any issue; (b) obligations fully and unconditionally guaranteed both as to principal and interest by the United States; (c) bonds of any county, city, village, or school district of this state which have been issued and registered as required by law; or (d) registered warrants of any county, city, or school district of this state;

(2) Such county officer shall at all times keep and certify to the county board a complete and correct list and description of the securities pledged by any depository bank; and

(3) The deposits secured by a surety bond shall at no time exceed the amount of the penal sum of such surety bond, and deposits secured by pledge of securities shall at no time exceed the market value of the securities thus pledged."

"Sec. 5. Every depository bank is authorized to secure deposits by pledge of the assets of the bank or by furnishing surety bond, and otherwise to enter into and become a party to any contract or arrangement, not inconsistent with the provisions thereof, as may be reasonably necessary or proper to render fully effective the provisions of this act. The depository bank pledging bonds or securities under this act shall have the right to substitute therefor from time to time other and different bonds and securities of equal value, within the foregoing requirements, and to withdraw all, or any part of, such pledged bonds or securities upon repayment to the public corporation and reduction of its deposit account in the amount of the value of the bonds or securities so withdrawn. Each depository bank shall furnish directly to the county board a sworn monthly statement of the funds of the public corporation on deposit in such depository."

All metropolitan cities and cities of the first class having a paid fire department, except any city of the first class that has heretofore adopted or may hereafter adopt a charter for its own government as provided in Article XI of the Constitution of Nebraska, shall pension all firemen of the paid fire department, whenever such firemen shall have first served in such fire department for the period of twenty-one years, and shall elect to retire from active service and go upon the retired list. Such pension shall be paid by the city in the same manner as firemen upon the active list are paid, and such pension shall be at least fifty per cent of the amount of salary such retiring fireman shall be receiving at the time he goes upon such pension list; ; Provided, in no case shall the amount of such pension be less than fifty dollars per month. At the death of any such retired fireman, the same rate of pension as herein provided for shall be paid to the widow of such deceased fireman during such time as she shall remain the widow of such deceased fireman, and in case there be no widow, then the minor children, if any, of such deceased fireman, shall be paid such pension during their minority, to the age of eighteen years; ; Provided, however, as soon as a child of such deceased fireman shall become eighteen years of age, such pension as to such child shall cease.

Sec. 2. That section 35-202, Compiled Statutes of Nebraska, 1929, be amended to read as follows:

35-202. In case of the death while in the line of duty of any fireman in a paid fire department in any city of the metropolitan or first class, except any city of the first class there has heretofore adopted or may hereafter adopt a charter for its own government as provided in Article XI of the Constitution of Nebraska, or in case death is caused by or is the result of injuries received while in the line of duty, then the same rate of pension as herein provided for in the next preceding section shall be paid to the widow or minor children of such deceased fireman, as provided in such section.

Sec. 3. That section 35-203, Compiled Statutes of Nebraska, 1929, be amended to read as follows:

35-203. In case any fireman in a paid fire department in any metropolitan city, or city of the first class, except any city of the first class that has heretofore adopted or may hereafter adopt a charter for its own government as provided in Article XI of the Constitution of Nebraska, shall become permanently and totally disabled from accident or other cause, while in the line of his duty, such fireman shall forthwith be placed upon the roll of pensioned firemen, at the rate as provided for retired firemen in the second preceding section; ; Provided, the provisions of this article act shall apply to all paid firemen now on the retired list, and to the widows and minor children of any deceased fireman who was on the retired list, under the provisions of this article act at the time of his death, and such widow and minor children shall receive such pension as is provided for in this article act; in case of partial disability of a fireman received while in the line of duty, he shall receive his salary during the continuance of such disability for a period not to exceed twelve months; Provided, further, if it shall be ascertained by the board of fire and police commissioners or other proper municipal authorities within twelve months that such disability has become permanent, then his salary shall cease, and he shall be entitled to the benefits of the provisions with reference to pensions referred to in this article act. Nothing in this act shall in any manner affect the right of any person now receiving or entitled to receive the pension provided in sections 2439, 2440 and 2441 of the Compiled Statutes of Nebraska for 1922, nor shall this act in any manner affect the right of any fireman now in the service of any city, included within the provisions of said section sections, who is now eligible to elect to retire and receive a pension as provided in said sections, or the widow or children of any such fireman, to receive a pension in all respects the same as if said original sections remained in full force and effect.

Sec. 4. Subject to the provisions of section 5 of this act, every city of the first class which has heretofore adopted, or which may hereafter adopt, a charter for its own government as provided in Article XI of the Constitution of Nebraska, shall be authorized to provide by its charter and establish pensions or a retirement system or systems for its municipal employees, including the members of its police and fire departments; Provided, however, a minimum requirement in favor of the members of such fire department shall consist of provisions identical with all of those contained in section 5 of this act and no other or different provisions; except solely that, at the option of any such city, more liberal provisions for such firemen may be contained, but it may not provide less in any respect. The state firemen's pension law, as set forth in sections 4 and 5 of this act, shall at all times continue in force in every city of the first class which has adopted or may hereafter adopt a charter for its own government. It shall not cease to so continue when any charter provision

is enacted or thereafter. If and when any such city adopts a charter provision meeting the foregoing minimum requirement, such provision shall be recognized so long and only so long as it continues to meet said minimum requirement. If such city fails to adopt a charter provision meeting such minimum requirement or having adopted it shall terminate it or amend or change it so as to render it below such minimum in any particular, then and in any such event every fireman now in the employ of such city or hereafter employed shall continue in exactly the same position under the state firemen's pension law as if no charter provision had been enacted.

Sec. 5. Every city of the first class which has adopted, or which may hereafter adopt, a charter for its own government as provided in Article XI of the Constitution of Nebraska, and which has a paid fire department shall pension all firemen of the paid fire department as follows:

(1) Every such city shall pension all such firemen whenever such firemen shall have first served in the paid fire department for a period of twenty-one years and shall elect to retire from active service and go upon the retired list; Provided, however, no person hereafter entering the employment of any such city as a member of its paid fire department, except former members of such department now in military service, shall be entitled to retire or elect to retire or go upon the retired list until, after the completion of said twenty-one years of service, he shall be fifty-five years of age. Such pension shall be paid by the city in the same manner as firemen upon the active list are paid, and such pension shall be at least fifty per cent of the amount of salary such retiring fireman shall be receiving at the time he goes upon such pension list; Provided, in no case shall the amount of such pension be less than fifty dollars per month.

(2) If, at the death of any such retired fireman, he shall leave surviving him a widow to whom he was legally married prior to his retirement, the same rate of pension as herein provided for shall be paid to such widow of such deceased fireman, and in case there shall be no such widow but such deceased fireman shall leave surviving him children of a marriage occurring prior to his retirement who shall be less than eighteen years of age, then such children of such deceased fireman shall be paid such pension to the age of eighteen years; Provided, however, as soon as a child of such deceased fireman shall become eighteen years of age such pension as to such child shall cease.

(3) When any such fireman shall be eligible to retire, regardless of whether he may actually elect to do so, the pension provided in subdivisions (1) and (2) of this section shall in any event be payable upon his death from any cause, or upon any other termination of his

service as a member of said department, whether by reason of resignation, discharge or otherwise.

(4) If any fireman hereafter entering the employment of any such city as a member of its paid fire department, who is not a former member of said department now in military service, shall die other than in line of duty after becoming fifty years of age and before age fifty-five, and after serving in the paid fire department of such city for at least twenty-one years, then a pension of at least twenty-five per cent of the amount of salary such fireman shall be receiving at the time of his death shall be paid to the widow or minor children of such deceased fireman as provided in subdivision (2) of this section.

(5) In case of the death, while in the line of duty, of any such fireman or in case death is caused by or is the result of injuries received while in line of duty, then the same pension as provided in subdivision (2) of this section shall be paid to the widow or minor children of such deceased fireman, as provided in such section, subject, however, to deduction of amounts paid under the Workmen's Compensation Act on account of such death, as hereinafter provided.

(6) In case any such fireman shall become permanently and totally disabled from accident or other cause, while in the line of his duty, such fireman shall forthwith be placed upon the roll of pensioned firemen, at the rate as provided for retired firemen in subdivisions (1) and (2) of this section. In case of temporary total disability of a fireman received while in line of duty, he shall receive his salary during the continuance of such disability for a period not to exceed twelve months; Provided, if it shall be ascertained by the city council or other proper municipal authorities within twelve months that such disability has become permanent, then his salary shall cease, and he shall be entitled to the benefits of the foregoing provisions with reference to pensions in case of total and permanent disability. All payments of pension or salary provided by this subsection shall be subject to deduction of amounts paid under the Workmen's Compensation Act as hereinafter provided.

(7) From and after the passage of this act, every such fireman may be required by the city to contribute to the city an amount equal to not more than three per cent of his salary until such fireman shall be entitled to retire, or otherwise become eligible for a pension under the provisions of this section, which amount may be deducted from the salary of every such fireman. No fireman continuing in the employment of the city as a member of such department after becoming eligible to retire shall be required to make any further contribution. Any fireman whose employment shall terminate, whether by discharge

or otherwise, prior to the time he shall become entitled to a pension, and who shall have made contributions from his salary as hereinbefore provided for a period of at least three years shall, upon demand, be reimbursed by the city for the amount of such contributions without interest.

(8) Notwithstanding any prior provisions of this section, no fireman shall be entitled during any period of disability to receive in full both pension or his salary as herein provided and in addition benefits under the Workmen's Compensation Act. All Workmen's Compensation Act benefits shall be payable in full to such fireman or his dependents as provided in said act, but all amounts paid by the city or its insurer under said act to any disabled fireman entitled to receive a salary or pension during such disability, or to the widow or children of any deceased fireman, shall be considered as payments on account of such salary or pension and shall be credited thereon. The remaining balance of such pension or salary, if any, shall be payable as otherwise provided in this section.

(9) This section, as well as other portions of this act, shall apply to officers of paid fire departments as well as to regularly employed firemen.

Sec. 6. That the original sections 35-201, 35-202, and 35-203, Compiled Statutes of Nebraska, 1929, are repealed.

Sec. 7. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law."

2. Amend the title to the bill, lines 2 to 13, by striking all of the same after the word "act" and inserting the following in lieu thereof: "relating to pensions for firemen; authorizing every city of the first class which has adopted, or which may hereafter adopt, a charter for its own government as provided by Article XI of the Constitution of Nebraska, to provide by charter and establish pensions or a retirement system or systems for its municipal employees, subject to statutory minimum standards as to firemen and other provisions and conditions relating thereto; to amend sections 35-201, 35-202, and 35-203, Compiled Statutes of Nebraska, 1929; to repeal the original sections; and to declare an emergency."

"in the manner and subject to the conditions and limitations provided in section 46-617, Compiled Statutes of Nebraska, 1929, as amended by section 2 of this act,"

2. Amend the bill, page 2, by adding after the present section 1 a new section, numbered "2" and reading as follows:

"Sec. 2. That section 46-617, Compiled Statutes of Nebraska, 1929, be amended to read as follows:

46-617. (1) Every person intending to construct and maintain a storage reservoir for irrigation or any other useful purpose, shall make an application to the Department of Roads and Irrigation upon a form prescribed and furnished to the applicant without cost. Such application shall be filed and proceedings had thereunder in the same

manner and under the same rules and regulations as other applications. Upon the approval of such application the applicant shall have the right to impound all waters not otherwise appropriated and any appropriated water not needed for immediate use, to construct and maintain necessary ditches for the purpose of conducting water to such storage reservoir, and to condemn land for such reservoir and ditches in the same manner as is provided by law for the condemnation of rights of way for other ditches. The owner of such storage reservoir shall be liable for all damages arising from leakage or overflow of the water therefrom, or from the breaking of the embankment of such reservoir. The owners or possessors of reservoirs shall not have the right to impound any water whatever in such reservoirs during the time that such water is required in ditches for direct irrigation or for reservoirs holding senior rights. Whenever any person shall divert water from a public stream and return it into the same stream, he may take out the same amount of water, less a reasonable deduction for seepage and evaporation to be determined by the department providing no prior appropriator for beneficial use shall be prejudiced by such diversion.

(2) After the completion of such storage reservoir to the satisfaction of the department any person, proposing to apply to beneficial use the water stored shall file with the department an application for a permit, particularly describing the use to which the water is to be applied and, if for irrigation, a description of the land to be irrigated, and whether it is proposed to irrigate lands within or without the basin from which the stored water was originally taken.

(3) If the application seeks only to use such stored water to irrigate lands within the basin from which the water was originally taken, such application shall be filed and proceedings had thereunder in the same manner and under the same rules and regulations as for an appropriation of water from a stream. The owner of such storage reservoir shall have a preferred right to make such application for a period of six months from the time limited for the completion of such reservoir. The day of expiration of such period shall be endorsed upon the application when allowed. If made by any other than such owner or owners prior to the expiration of such time, the same shall not be approved by the department until the applicant shall show by documentary evidence that he has acquired a sufficient interest in such storage reservoir to entitle him to enough water for the purpose set forth in said application. No appropriation of stored water for irrigation shall exceed three acre feet during any calendar year for each acre of land for which said appropriation may be made.

(4) If the application seeks to use such stored water to irrigate lands outside of the basin from which the stored water was originally

taken, the following procedure shall be had: When such application is made, the Department of Roads and Irrigation shall set a date for hearing upon the application not less than sixty days nor more than ninety days from the date of filing thereof, and shall immediately give notice of such hearing by publication in a legal newspaper of general circulation in the State of Nebraska in one issue each week during three consecutive weeks. All persons desiring to use the water stored in such reservoir for irrigation of lands located within the basin shall, at least thirty days before the date of hearing, file with the department an application for a permit to use such water, setting forth in such application a description of the land to be irrigated, the manner and method by which the water is to be withdrawn from the reservoir and carried to the lands to be irrigated, and such other matters as will disclose that the stored water can and will be applied to a beneficial use. With the application shall be filed documentary evidence that the person or persons filing such application have acquired a sufficient interest in such storage reservoir and incidental facilities to entitle applicant to enough water for the purpose set forth in the application, or a statement that an agreement cannot be reached with the owner or owners of the reservoirs which will entitle the applicant to such an amount of water and a request that the department determine the terms and conditions upon which the owner or owners of such storage reservoir shall supply the water to the applicant. At the hearing, the department shall determine the reasonable and necessary amount of water that may be applied to a beneficial use to irrigate the lands within the basin covered by the application or applications filed, and shall enter an order fixing and adjudicating the amount of water which may be withdrawn from the reservoir for such purpose, the lands to which the same may be applied, the time within which the appropriation shall be completed through construction of works to carry the water from the reservoir to the land and application of the water to a beneficial use, and the equitable portion of the cost of construction and maintenance of the reservoir and incidental facilities to be paid by the party or parties desiring to use the stored water therefrom within the basin and the terms upon which payment shall be made. The water rights thus granted for use of stored water to irrigate lands within the basin from which originally taken shall be a prior claim on the water stored in the reservoir, shall be prior and superior to any rights allowed for irrigation purposes of lands outside of the basin, and the amount of water found by the department that may be applied to a beneficial use to irrigate lands within the basin of the stream shall not be diverted from the reservoir for any other purpose. If the quantity of water stored in the reservoir under the authority of a permit issued by the Department of Roads and Irrigation is not exhausted by the amount appropriated for use upon land situated in the basin from which taken, the department shall grant an application for a permit to appropriate the water which may be in the reservoir for use on

land outside of the basin as to any surplus not needed to meet the allowance made to irrigate land within the basin. Except as herein otherwise provided, the law governing applications for and allowances of appropriations from natural streams shall govern the applications for and allowances of appropriations for water stored in reservoirs, and orders entered by the department shall contain the usual provisions contained in an order allowing an appropriation from a stream. Any party feeling himself aggrieved by the orders of the department may appeal therefrom to the Supreme Court of Nebraska in the same manner as appeals are now taken to that court from orders of the department allowing water rights.

(5) A reservoir constructed for the purpose of holding water back and raising it in order that it may be applied to lands of a higher level or given a greater head for power, shall not be considered a storage reservoir, but such reservoir together with the diverting or impounding dam, must be described in an application for flowing water when water is to be raised, in order to perfect the appropriation."

#### STATEMENT—Committee on Appropriations

Public hearing on Legislative Resolution No. 14 was held before the Committee on Appropriations on April 5, 1943, at 2 o'clock p. m. in the Governor's Hearing Room of the State Capitol. The original Resolution provided as follows:

"Therefore Be It Resolved: That this Legislature honor this distinguished citizen, John J. Pershing, while living, by authorizing the erection of a suitable memorial in Lincoln, Nebraska.

"Be It Further Resolved: That no appropriation is asked or sought from this Legislature. The Spirit of this Statue is to live in the hearts of our million and a half citizens of Nebraska, and particularly our 500,000 school children. Their voluntary contributions shall become the nucleus of the funds to finance this project and every one should be given the opportunity to contribute . . ."

The Committee feels that the intent and purpose of this original Resolution was the erection of a statue memorializing John J. Pershing, the greatest General of his age, from contributions to be secured by school children. The thought and intent of the original Resolution was laudable and commendable.

The evidence adduced at the hearing disclosed that the Commission intended and created by the Resolution took no action or steps for the erection of a memorial, or the soliciting of funds to erect the same, as apparent from the intent and purpose of the original Resolution. Instead, the evidence disclosed that Harry R. Follmer, Secretary, solicited considerable funds from the people of Lincoln and throughout the State of Nebraska, using these funds for the publication and distribution of books of various sizes and descriptions.

It further appeared from the evidence, that Mr. Follmer intended to continue the publication of these books, and to use same for the soliciting of funds securing therefrom a small amount, as the value of the book would warrant, to contributions of five hundred to one thousand dollars.

In addition to the selling and publication of the books, certain other circulars were printed and it appeared that these were printed without the consent and authorization of the Commission.

It appears further, that no part of the activities of Harry R. Follmer, or the Commission if his action was authorized by the Commission, were within the intent and purpose of the original Resolution. From the evidence produced at the hearing, the entire activities of the Commission were by the Secretary, Harry R. Follmer, and it does not appear that the Commission has functioned as intended by the original Resolution.

Based upon these facts, the Committee on Appropriations recommends the adoption of Resolution No. 14 by the Legislature.

(Signed) Greenamyre, Chairman

Mr. Garber moved that the resolution be adopted.

The motion prevailed with 32 ayes, no nays, 11 not voting.

### MESSAGE FROM THE GOVERNOR

#### 1943 Statute Commission

April 7, 1943.

To the President, the Speaker, and  
Members of the Legislature.

Gentlemen:

As Chairman of the 1943 Statute Commission, I have been directed by the commission to file its report with the Clerk of the Legislature and to submit the same for your consideration and approval. Your Judiciary Committee, I am informed, has already made a careful study and check of the report, and is prepared to introduce a bill to approve the report and to authorize the publication of the matter therein contained, together with the general laws enacted at the present session of the Legislature, as the Revised Statutes of 1943. I request the introduction of this bill and its passage in order to carry out and complete the task assigned to the 1943 Statute Commission.

In the entire history of Nebraska, there have been only two previous true revisions of the statutes. The first revision occurred in 1866 when the Territorial laws were revised and published as the Revised

Statutes of 1866. The second revision was had in 1913, thirty years ago. When such a length of time elapses between revisions, there is bound to be a great need for the correction of the many errors, inconsistencies and duplications that arise through the exercise of the legislative process. To anyone familiar in the slightest degree with the Nebraska statutes, the need for revision was clearly apparent when the 1941 Legislature recognized the existing condition and took appropriate action.

The 1943 Statute Commission was created by Chapter 97, Session Laws of Nebraska, 1941, which was passed with an emergency clause and was approved on April 30, 1941. Two main duties were imposed upon the commission: First, to edit, arrange, annotate, compile and index the present statutes; and, second, to report to the 1943 session of the Legislature "suggested changes and revisions in laws then in force for the purpose of correcting errors and inconsistencies, eliminating duplications, eliminating laws apparently in force but repealed by implication, eliminating obsolete laws, correcting defective titles of legislative acts and defective section structure and arrangement of subject of existing statutes, clarifying existing laws, and such other similar matters as the commission may deem proper." In the report, the commission was directed to designate each and every enactment, or part thereof, which in their judgment should be changed or modified, stating every change recommended with their reasons therefor.

The commission, being composed of state officers having other duties to perform, manifestly could not undertake personally the task imposed by this act, and had to delegate to someone the responsibility for carrying forward the work. On May 16, 1941, the commission selected Walter D. James of McCook and Charles F. Bongardt of Omaha as Director and Assistant Director respectively of the 1943 Statute Commission, and entrusted to them the performance of the work under broad policies established and adopted by the commission.

In order to formulate plans for carrying out the task assigned to them, the Director and Assistant Director were assigned the duty of making a study and investigation of the plans followed and methods used in statute revision in other states. This assignment was carried out and a complete report was made to the commission on June 16, 1941. The basic policies which were to guide the work of the commission were adopted at this meeting.

It was decided, first of all, that the work should be done through local employees rather than farming the work out to some publishing house. Revision, as distinguished from compilation, requires legal knowledge of and experience with the statutes and decisions of the

state whose laws are to be revised, and can best be done by lawyers familiar with those laws. It was further decided that a general re-writing of the laws for the purpose of clarification should not be attempted, but that the revision should be confined to correcting errors and inconsistencies, eliminating duplications and obsolete laws. It was further decided that each and every chapter in the Compiled Statutes of 1929 and the Cumulative Supplement thereto should receive attention. In order to comply with the legislative mandate of stating each and every change made, and the reason therefor, the device of setting out a reviser's note to each and every section of the statutes was adopted.

The 1941 Legislature left certain matters for the commission to determine as to the form and arrangement that the statutes, when published, should take. The commission decided that the statutes should be published in 3 volumes, the maximum number permitted by the 1941 Legislature. The amount of material contained in the 1929 Compiled Statutes and the 1941 Cumulative Supplement requires that three volumes, rather than a smaller number, be used. It was further decided to follow the chapter and article arrangement of the 1929 Compiled Statutes and the numbering system therein contained, so far as possible, with one major exception. This exception groups in one volume all of the chapters in the statutes dealing with courts and procedure. The index to the 1913 Revised Statutes was selected for use as the basis for index work. Pocket parts will appear in the statutes, not for the purpose of inserting additional legislation as this would in a short time make the volumes too bulky, but for the purpose of carrying forward cumulative supplemental annotations.

The revision report has been prepared at considerable expense to the state, and after twenty-one months of intensive work by the lawyers selected by the commission. I feel sure you will find that the revisory work directed by the 1941 Legislature has been carried out as directed and it should receive your approval.

Respectfully submitted,  
(Signed) Dwight Griswold  
Governor.

### MESSAGE FROM THE GOVERNOR

#### Veto on L. B. 130

April 7, 1943.

To the President, the Speaker, and  
Members of the Legislature.

Gentlemen:

I am returning without my approval Legislative Bill No. 130.

In my judgment this bill is unconstitutional. Upon final passage it received but twenty-six votes while Section 27 of Article 4 of the State Constitution provides that "No executive state office \* \* \* shall be created except by a two-thirds majority of all members elected". This means that any bill creating a new executive state office requires twenty-nine votes upon final passage and is intended to guard against the creation of new and unnecessary departments. The members of the board provided in L. B. 130 must be executive state officers as they certainly are neither legislative nor judicial, and they do have the responsibility of appointing a secretary, spending money and carrying on other executive functions.

It is my belief that L. B. 130 is unconstitutional for another reason in that in Section 1 it attempts to provide that the "State Engineer and the Director of Conservation and Survey Division, University of Nebraska, shall be ex officio members of the board". Section 1 of Article 4 of the State Constitution provides that "The heads of all executive departments established by law other than those to be elected as provided herein shall be appointed by the Governor with the consent of a majority of all the members elected to the Legislature, but officers so appointed may be removed by the Governor." This clause provides for a complete separation of the legislative and executive departments of the state government. The Legislature can create new executive state offices, but they can be filled in one manner only, and that is by appointment by the Governor. In Section 1 of L. B. 130 the Legislature has attempted to name three members of this proposed board as ex officio members and in my judgment this provision does not meet with the requirements of the constitution.

I do not, however, propose to rest my veto of Legislative Bill No.

130 upon technical grounds of unconstitutionality. In my judgment it is very poor legislation as it provides for a complete duplication of work already being done by the Department of Roads and Irrigation. The people of Nebraska have a right to be proud of their state government, and this condition has generally been true for many, many years. We have avoided the creation of duplicating and overlapping departments, and I cannot place my approval upon this bill which is a violation of the fine precedent which has been established. Legislative Bill No. 130 is not entirely fair as it is written, as it provides for no appropriation, but directs the Legislature in Section 9 to appropriate such money as is necessary to carry out its provisions. We would thus be spending a considerable sum of money to set up a new office with a new secretary and a separate office force, all to do work which is now being done by the Department of Roads and Irrigation.

In Section 4, this bill provides that "The State Engineer shall \* \* \* perform such duties \* \* \* as may be required by the board". This provision could easily cause terrible confusion as it really places this board in charge of the entire Department of Roads and Irrigation.

In Section 5 it is provided that "the powers and duties of the board shall be to receive, investigate, consider and recommend \* \* \* projects, plans and proposals for orderly and planned development, improvement and extension of such public and private works as are related to soil and water resources". This is really the heart of the bill and inasmuch as the Department of Roads and Irrigation is now doing exactly this same work, I cannot understand its necessity.

At my suggestion, the Legislature two years ago made available some additional funds for the development of the Bureau of Irrigation. Some of these funds were used to employ an additional irrigation engineer who was brought here from the state of Colorado to add strength to this bureau.

Mr. Scott, the State Engineer, has also given a great deal of his time to irrigation activities. He was the Nebraska representative on the Republican River Compact Commission and has attended eight meetings of that group, several of these lasting three or four days. Aside from the parts of days given to the administrative details connected with irrigation, the State Engineer has spent a total of sixty-nine full working days on matters pertaining solely to the Bureau of Irrigation. Part of this time was spent in attending the meetings of the Compact Commission while a great many days have been spent with U. S. Army Engineers and the Bureau of Reclamation in working out plans for further irrigation and flood control development in Nebraska.

I am glad to report that a great deal of good has been accomplished and as a result of conferences held with the U. S. Army Engineer's office in Kansas City, Omaha and Washington, their former recommendations with reference to flood control in the Republican River basin were revised and the Army Engineers have announced a policy at this time to provide for complete flood protection in the entire Republican River basin rather than to limit their work to the lower regions of the Republican River as originally contemplated. I might add that as Governor, I have also conferred with the Chief of Engineers at Washington and with the Division Chief at Omaha in regard to these same matters.

As evidence of the further activity of the State Engineer in connection with irrigation matters, I desire to report that he is now serving as a member of a special committee of five from the National Reclamation Association interested in the preservation of states' rights and working for the fullest utilization of the natural resources of the states. At a recent meeting of the Association of Western State Engineers held in Denver in conjunction with the National Reclamation Association, Mr. Wardner Scott, Nebraska's present State Engineer, was chosen as President of that association for the coming year. This organization is composed of the engineers in each of the seventeen western states dealing with the water problems of those states.

I have gone into considerable detail to tell of the work that has been done and is now being done by the Department of Roads and Irrigation and by the State Engineer personally in connection with irrigation matters. I do this because under previous administrations there was a tendency to regard the Bureau of Irrigation as unimportant compared to the larger bureau of highways, both of them being in the one department. Mr. Scott, the present State Engineer, and I both feel that irrigation is tremendously important to Nebraska and the department has been operated on that basis. We have not felt, however, that the state should pay the expense of someone to represent us constantly in Washington to promote irrigation activities. Our Senators and Congressmen are elected by the people to carry that responsibility and personally I feel it would be a waste of public money to attempt to duplicate their efforts. Nebraska is prepared to furnish the necessary information, and I am glad to quote from a recent publication (No. 504) of the United States Department of Agriculture which refers on Page 29 to "the large fund of information on water resources assembled by the State of Nebraska".

I believe it is realized by all that we are now in a planning period and that no construction will be started until manpower and critical materials are available.

In view of my belief that the State of Nebraska through the Department of Roads and Irrigation and through the University of Nebraska is now doing a splendid work in studying and promoting Nebraska's water resources, and in view of the further feeling that to create a new agency would only create jealousies and add confusion and unnecessary expense, I am returning Legislative Bill 130 without my approval.

Respectfully submitted,  
(Signed) Dwight Griswold  
Governor

Section 8. The Commission shall have all the usual powers of a corporation for public purposes, as well as a political subdivision, including in addition to those herein granted the following powers and be subject to the following limitations of those powers:

(a) The Commission shall have one or more offices for the conduct of its affairs, provided that the principal office, records, books and accounts of the Commission shall always be maintained in the City.

(b) The Commission shall have the power to pay out or expend money only on the approval of the Board of Directors and by checks, warrants or other instruments in writing, signed by not less than two of the members or officers of the Commission, including the Treasurer or Assistant Treasurer of the Commission, as designated by the Board of Directors.

(c) The Commission shall receive bids for all work of construction or repairs which it may desire to have done by contract, or for materials and supplies to be used in connection with such work, which said bids shall be received after reasonable advertisement therefor, and when opened shall be read in public session, and the Board of Directors may award contracts based upon said bids to the lowest and best bidders; provided, however, the Board of Directors may, for such reasons as appear to it good and substantial, reject all bids; and if all bids are rejected said Board of Directors shall have the power and authority to itself do all of said work or to directly purchase materials and supplies without re-advertising for bids, and without enter-

ing into a contract with any other person or companies in relation thereto.

(d) The Commission shall have the authority to make contracts of insurance with any insurance company or non-profit hospitalization corporation or association, or non-profit medical service, or other health, benefit or relief corporation or association authorized to transact business within the State, insuring its employees, or any class or classes thereof, under a policy or policies of group insurance covering life, health, hospitalization, medical service or accident insurance, and may contract with any such company granting annuities or pensions for the pensioning or retirement of its employees; and, for such purposes, may agree to pay part or all of the premiums or charges for carrying such contracts, and may charge as operating expenses any money necessary to pay any such premiums or charges or portions thereof. The Commission is hereby also authorized to deduct from the employee's pay, salary or compensation, such part of the premium as is payable by the employee, and as may be authorized by the employee, in writing. All contracts procured hereunder shall conform and be subject to all the provisions of any existing or future laws of Nebraska concerning group insurance and group annuity contracts. In the exercise of this power, the Commission may assume or continue in force any contracts in force and entered into by its predecessor in ownership of such electric utility, or may enter into new or different contracts and take into consideration therein prior years of service of the employees with the predecessor or predecessors in ownership of such electric utility.

Section 9. The Commission shall keep an accurate record of all its acts, the minutes of meetings of its Board of Directors, the property owned or operated by it, the cost of the utility, and its revenues and expenses, which records shall be deemed public and subject to examination by the City. A semi-annual statement in detail of the affairs of the Commission, including an account of its assets and liabilities and its disbursements and receipts, signed by the Chairman or Vice Chairman and Treasurer or Assistant Treasurer, and approved by the majority of the Commission, shall be filed with the City Clerk, and a Summary thereof shall be published at such time in a newspaper of general circulation in the City, and, at least annually, an audit of the books and accounts of the Commission shall be conducted by an independent certified public accountant, and the report of such audit shall likewise be filed with the City Clerk of the City. On the adoption of a Resolution by the Governing Body of the City so directing, the City Comptroller, or other duly authorized representative of the City, shall have the right to investigate the books of the Commission at any time for the purpose of examining into the correctness of such statements or reports; and, by like resolution, the City

Engineer, or a duly authorized representative of the City Engineer, shall have the right at any time to make an examination of the Commission's Plant and property.

Section 10. The Commission shall annually pay to the State of Nebraska and to each governmental subdivision thereof in which the Commission owns property, a sum equal to the amount of taxes which would be levied on such property or the owner thereof, if such property were privately owned. The amount so to be paid shall be determined and arrived at by a value being placed on such property by the assessing authority, as if the property were privately owned, and such value multiplied by the then current tax levy, in all respects as the amount of tax thereon would be arrived at if the property were privately owned.

In case of unjust or excessive value being placed on such property by the assessing authority an appeal therefrom to the district court of the county in which the property lies may be taken by the Commission, and the procedure for such appeal shall be in all respects as in appeals from the county board of equalization.

The Commission shall also pay annually to the Metropolitan City a sum equal to three and one-half per cent of the gross revenue derived from the sale of electric current within the corporate limits of the city. The payments required by this section shall be payable out of net earnings, after the payment of operating expenses, interest on debt and amortization of maturing notes or bonds. Should the Commission, for want of funds, fail in any year to make such payments the obligation shall continue until paid.

The bonds of the Commission are declared to be issued for an essential public purpose and, together with interest thereon and income therefrom, shall be exempt from all taxes.

Section 11. In addition to other means of acquisition otherwise provided, the Commission is hereby authorized and empowered to acquire by purchase, bargain and sale, gift or otherwise, in the territory in the State of Nebraska defined as the metropolitan area, or in an adjoining state or in both the State of Nebraska and in an adjoining state, when the property therein is to be inter-connected with, or a part of, an electrical system within this state, or in both, or in an adjoining state when authorized by such state but only if such authority be necessary, solely from funds provided under the authority of this act, the electric utility or plant or part thereof serving the City and adjoining municipalities and rural areas intervening between them at the time of acquisition; and may acquire within the metropolitan area such lands, structures, rights of way, franchises, ease-

ments or other interests in land or electrical property of any character, from any person or public or private corporation, necessary or convenient for the acquisition, extension or enlargement within the metropolitan area of the electrical utility serving the city and the metropolitan area upon such terms, price or consideration, as may be considered by the Commission to be reasonable and can be agreed upon between it and the owner or owners, title thereto to be taken in the Commission, subject, however, to the referendum as provided in this act. Such purchase may be made subject to existing liens or incumbrances or subject to or upon the assumption of outstanding bonds or other indebtedness. The Commission may acquire such a utility by purchase of all of the capital stock not immediately subject to call and retirement, of a private utility corporation, organized under the laws of this or any other state, so serving the city and adjoining municipalities and intervening areas in lieu of the purchase of the property, but only as a means of acquiring the property of such utility; and the Commission shall in that event forthwith call and retire all outstanding callable stock of such corporation or cause the same to be done, transfer the property and assets of such corporation to the Commission and dissolve such corporation.

Section 12. Any incorporated rural electrification area or public power district in this state, except a public power district which operates or owns property in more than twenty counties, may acquire by purchase or condemnation the rural distribution lines and accessories of the Commission within the corporate limits of such electrification area, but may not take by condemnation any lines of the Commission which are used or necessary for the transmission of current to any city or village or rural district beyond the lines so taken and still being served by the Commission. And any city or village, except a metropolitan city, may acquire by purchase or condemnation the distribution lines and accessories of the Commission within the limits of such city or village. In event any rural electrification area, public power district, city or village elects to acquire distribution lines and accessories, as in this section authorized, by exercise of the power of eminent domain the procedure for determining the price and terms shall be the manner provided in Sections 19-708 to 19-714, both inclusive, Nebraska Compiled Statutes Supplement, 1941, and amendments thereto and the procedure shall in all respects be as therein provided for.

If such public power district, city or village, upon acquisition of the property of the Commission as above provided, shall desire to purchase at wholesale its supply of electric current from the Commission, the Commission shall furnish such current, but if such public power district, city or village and the Commission cannot agree upon the rate to be charged for such current, the matter shall be submitted to the Nebraska State Railway Commission which Commission, after proper notice and

hearing, shall establish such rate and the rate so established shall be the rate to be paid and received for current so furnished. If such public power district, city or village shall acquire the property of the Commission under condemnation proceedings as provided above, the court of condemnation, at the time of such proceedings, shall establish severance damages if any, but any severance damages so established shall become due and payable only when and if such public power district, city or village ceases to purchase at wholesale from the Commission its entire supply of electric current for the properties so taken and in event of ceasing to so purchase then the severance damages as theretofore determined shall immediately be due and payable.

No public power district organized under the laws of this state shall acquire by purchase, condemnation or otherwise an electric light or power plant or electric utility within the corporate limits of a metropolitan city. No public power district owning property or operating in more than twenty counties in this state may extend or enlarge its electric utility service or holdings within the metropolitan area as herein defined; but such public power district may continue to own and operate such electric properties as they own within the metropolitan area at the time this act takes effect.

Section 13. In addition to the powers of the Commission to secure its notes or bonds by pledge of revenues, the Commission may also, at the option of the Board of Directors, secure such notes or bonds by mortgage or deed of trust upon the Commission's property, assets and franchises if such indebtedness or the proceeds of such notes or bonds in their entirety represent the purchase price of the property embraced within the mortgage or deed of trust or represents initial working capital of the Commission or both. Such mortgage or deed of trust may contain such provisions for protecting and enforcing the rights and remedies of the trustee or trustees or the holders of the bonds or notes as may be customary in trust agreements representing bonds of corporations. Such mortgage may vest in a trustee or trustees or in the holders of bonds or notes, the right in the event of default in the payment of principal or interest or any of the bonds after such principal or interest shall become due, to take possession and use, operate and manage the property of the Commission, and to collect the revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the Commission with said trustee or trustees; provided, the City shall, at all times, have the right to cure such default by payment of the arrearage or arrearages, and to take over such business subject to the indebtedness remaining after the meeting of such default. The Commission shall, however, never pledge the credit or taxing power of the city or of any other governmental subdivision of the state. The grant of power herein to the Commission to incur indebtedness or issue bonds, shall be free from any restrictions now imposed by the charter of the

City or other provisions of law respecting the issuance of bonds and incurring of indebtedness, and subject only to the provisions of the constitution of the state and such notes or bonds may be issued without submission of the proposition to the electorate of the City, and without reference to any other restrictions applicable to such City.

Section 14. No contract entered into by the Commission for the purchase of the property and franchise of the electric utility serving a metropolitan city, or of the capital stock of a private corporation owning such utility, which is not subject to call and retirement, except through the exercise of the power of eminent domain, shall be final or binding:

(a) Unless and until the price and other terms and conditions of the sale or disposal of such electric utility by the owner thereof to anyone whomsoever, or the purchase thereof by the Commission, shall have been published once each week for two consecutive weeks, in a legal newspaper of general circulation in the county in which such metropolitan city is located, and proof of such publication shall have been thereafter filed with the City Clerk of such metropolitan city; and

(b) Unless and until a regular or special election, as herein provided, has been held as a referendum by the electors thereon, and a majority of the qualified electors of the metropolitan city voting thereon shall vote in favor of such sale or disposal. The proposed sale or disposal shall be submitted to the electors at a special election to be called for that purpose, or at a general election, to be held not less than thirty (30) nor more than ninety (90) days after the filing with the City Clerk of such proof of publication, the said election to be called, proclaimed, held, conducted and canvassed after the manner of general or special city elections with respect to amendments or repeals of the charter of such city. The proposition to be submitted to the electors shall be stated on the ballot substantially as follows:

Shall the purchase (or sale or other disposal) of the property and franchise (or the capital stock) of (insert the name of the electric utility) to (insert name of the purchaser) for the sum of \$..... and upon the other terms and conditions as first published on (here insert the date of first publication) in (here insert the name of the newspaper) be approved?

## RESOLUTIONS

### LEGISLATIVE RESOLUTION 27. Republican River Flood Control

Introduced by Arthur Carmody of Hitchcock, E. M. Neubauer of Harlan, Daniel Garber of Webster.

WHEREAS, the Congress of the United States, by the adoption of acts pertaining to flood control and reclamation has recognized responsibility on the part of the federal government to control the destructive flood waters of the basins of the Mississippi and Missouri rivers, has declared this to be a national problem, and has heretofore authorized the expenditure of federal funds in considerable amounts in the area for the improvement of conditions resulting from floods and droughts; and

WHEREAS, the Republican River Valley drainage area in Nebraska, settled by people who are and have been making every effort to better their condition in the face of adverse circumstances beyond their control, comprises many hundreds of thousands of acres of valuable land which has been greatly damaged by floods and drought; and

WHEREAS, the Republican Valley in Nebraska, a part of the great drainage area of the Missouri and Mississippi rivers, has thus far received but scant federal recognition and reclamation; and

WHEREAS, as a result of the 1935 and 1940 floods in that valley, over one hundred persons lost their lives, the property loss was tremendous, and much of the vital and valuable land in the valley has been imperiled and made subject to repeated damage from flood waters, while, on the other hand, many thousands of acres in the area are in urgent need of the waste waters of the river for irrigation, the above conditions having combined to make agriculture unprofitable in the southwestern section of Nebraska, caused relief loads which counties are unable to bear, causing population losses which mean reduced land values and tax yields; and

WHEREAS, United States army engineers have assured residents of the upper Republican River Valley that they could set up a plan of flood control which would give protection to Kansas City and other points on the Missouri and Mississippi rivers as well as farm and urban property in the upper valley, by means of the constructive and comprehensive federal program for the protection of life and property from destructive floods and drought within the drainage area of the Republican river, including its tributaries, being admittedly a national problem, which said program is needed for the control, conservation, development and beneficial use of the water and land resources of said area;

NOW, THEREFORE, BE IT RESOLVED BY THE FIFTY-SIXTH SESSION OF THE NEBRASKA LEGISLATURE:

1. That the Congress of the United States be and it is hereby requested and urged to cause to be made full, complete and comprehensive survey and investigation into the claims of the residents of the Republican River Valley in Nebraska for flood control and reclamation therein, including the storing, preservation and distribution of the waste and flood water of said river and its tributaries for beneficial uses, and that the development of the irrigation program for the Republican River Valley be paralleled by flood control for said valley.

2. That the Congress of the United States be and it is hereby urged to make early appropriation of said funds to insure the inauguration and continuation of internal improvement projects within said valley, and that the proper federal agencies be empowered and directed to give early and careful consideration to the feasibility and advisability of constructing and maintaining dams in said area in Nebraska, including the various tributaries of the Republican river, for the said purpose

of flood control, conservation and other beneficial use of the water, including that of irrigation.

3. That a copy of this resolution be spread at large upon the Journal of the Legislature, and that the Clerk of the Legislature be directed forthwith to forward a copy of this resolution, properly authenticated and suitably engrossed to the President of the United States, the Vice President of the United States, to each congressman and senator from the State of Nebraska, to the chief of the army engineers, Washington, D. C., to the Mississippi Valley Flood Association, to the National Rivers and Harbors Congress and to the National Reclamation Association to the end that each of these federal officials and agencies may know and recognize that the problem of the Republican Valley flood control is serious and that without flood control from which can flow irrigation and soil conservation, this area may become entirely destitute.

Mr. Carmody requested unanimous consent to consider the resolution at once.

No objection was offered. So ordered.

Mr. Carmody moved that the resolution be adopted.

The motion prevailed with 27 ayes, no nays, 16 not voting.

## MESSAGE FROM THE GOVERNOR

### Veto on Legislative Bill 132

April 23, 1943.

Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning without my approval Legislative Bill 132 providing for the payment of a bonus of ten thousand dollars to the firm which first constructs and puts into production a plant for the manufacture of plastics from Nebraska materials.

If a plant is to be built in Nebraska to produce plastics in any appreciable quantity it will require a large amount of capital and I do

not believe that the state paying them ten thousand dollars will have any effect whatsoever in causing any firm to build such a plant. Such plants will come into Nebraska when they are proven to be economically sound and profitable over a long term of years.

There is as much reason for Nebraska to offer a bonus of ten thousand dollars for the establishment of a shoe factory using Nebraska hides, for the establishment of a glass or pottery plant, or for the development of any product which uses Nebraska material. It is doubtful if government is intended to spend the taxpayers' money for purposes such as this, and if we ever start I do not see where there is any end. In my judgment this bill is a waste of ten thousand dollars of the people's money and it should not become a law.

Respectfully submitted,  
(Signed) Dwight Griswold  
Governor.

(TIME: COMPUTATION:) In computing any period of time prescribed or allowed by this Code, by order of Court, or by any applicable statute, the day of the act, event or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Sunday or a legal holiday, in which event the period runs until the end of the next day which is neither a Sunday nor a legal holiday. When the period of time prescribed or allowed is less than seven days, intermediate Sundays and legal holidays shall be excluded in the computation. (RULE NO. 13 (a)—REVISION NO. 25-537.)

SEC. 4. (COMPULSORY COUNTERCLAIMS.) A pleading shall state as a counterclaim, any claim, not the subject of a pending action, which at the time of filing the pleading the pleader has against any opposing party, if it arises out of the transaction or occurrence that is the subject matter of the opposing party's claim and does not require for its adjudication the presence of third parties of whom the court cannot acquire jurisdiction. If the defendant omit to set up such counterclaim, he cannot recover costs against the plaintiff in any subsequent action thereon.

(RULE NO. 14 (a)—REVISION NO. 25-548)

SEC. 5. (WHEN DEFENDANT MAY BRING IN THIRD PARTY.) Before the service filing of his answer a defendant may move ex parte or, after the service filing of his answer, on notice to the plaintiff, for leave as a third-party plaintiff to serve a summons and complaint upon a person not a party to the action who is or may be liable to the plaintiff on the original cause of action for all or part of the plaintiff's claim against him. A third-party defendant may proceed under this section against any person not a party to the action who is or may be liable to the plaintiff on the original cause of action for all or part of the claim made in the action against the third-party defendant.

**SEC. 7. (UNKNOWN DEFENDANTS.)** When the plaintiff shall be ignorant of the defendant, such defendant may be designated in any pleading or proceeding by any name, or any name and description, followed by the words, "real name unknown." In any such case the person intended shall thereupon be regarded as a defendant in such action or proceeding and as sufficiently identified therein for all purposes, including service of summons or constructive service when authorized and as prescribed by this Code. In any action wherein the subject matter is as described in the first or fourth subdivisions of section 25-421 20-517 **Compiled Statutes of Nebraska, 1929**, wherein it is alleged in the petition or other pleading that there are persons who claim or appear to have some interest in, right, or title to, or lien upon any real or personal property within this state involved in such action, and that the ownership or interest in, right or title to, or lien upon such property of such persons does not appear of record in or by their respective names, in the county wherein such property is situated, and that the plaintiff or persons in whose behalf such allegations, are made, after diligent investigation and inquiry, is unable to ascertain and does not know the names or whereabouts, if in this state, or the residence of such persons, such action may proceed against all such persons designated as "all persons having or claiming any interest in" such property, which shall be accurately and definitely described, followed by the words, "real names unknown," and defendants so designated may be served by publication when the affidavit provided for in section 25-422 20-518 **Compiled Statutes of Nebraska, 1929**, has been filed. Judgments and decrees against persons so designated and made defendants, and served by publication as herein provided shall be conclusive as against all persons who are not in actual possession of such property, and whose ownership of, interest in, right or title to, or lien upon such property

does not appear of record in or by their respective names, in the county wherein such property is situated.

(RULE NO. 17 (d)—REVISION NO. 25-615—Old No. 20-526.)

(RULE NO. 50 (a)—REVISION NO. 25-830.)

SEC. 9. (MOTION FOR DIRECTED VERDICT: EFFECT.) A party who moves for a directed verdict at the close of the evidence offered by an opponent may offer evidence in the event that the motion is not granted, without having reserved the right so to do and to the same extent as if the motion had not been made. A motion for a directed verdict which is not granted is not a waiver of trial by jury unless all parties to the action have moved for directed verdicts at the close of all the evidence. A motion for a directed verdict shall state the specific grounds therefor.

(RULE NO. 50 (b-1)—REVISION NO. 25-831.)

SEC. 10. (MOTION FOR DIRECTED VERDICT: RESERVATION OF DECISION.) Whenever a motion for a directed verdict made at the close of all the evidence is denied, or for any reason is not granted, the Court is deemed to have submitted the action to the jury subject to a later determination of the legal questions raised by the motion. Within ten days after the reception of a verdict, a party who

has moved for a directed verdict may move to have the verdict and any judgment entered thereon set aside and to have judgment entered in accordance with his motion for a directed verdict; or if a verdict was not returned, such party, within ten days after the jury has been discharged, may move for judgment in accordance with his motion for a directed verdict. A motion for a new trial may be joined with this motion, or a new trial may be prayed for in the alternative. If a verdict was returned the Court may allow the judgment to stand or may reopen the judgment and either order a new trial or direct the entry of judgment as if the requested verdict had been directed. If no verdict was returned the court may direct the entry of judgment as if the requested verdict had been directed or may order a new trial.

(RULE NO. 50 (b)—(2).—REVISION NO. 25-832.)

SEC. 11. (JUDGMENT ON MOTION FOR DIRECTED VERDICT: ORDER ON MOTION FOR NEW TRIAL: APPEALS.) An order entering judgment as provided in section 25-331 10, or granting or denying a new trial, is an appealable order. The Supreme Court on appeal from an order granting a new trial, or upon a review of an order denying a new trial in the action in which such motion was made, or on appeal from the judgment, may order and direct judgment to be entered in favor of the party who was entitled to such judgment, whenever it shall appear from the evidence that the party was entitled thereto.

(RULE NO. 52 (a)—REVISION NO. 25-844—Old No. 20-1127.)

SEC. 12. (FINDING BY THE COURT: EFFECT.) In all actions tried upon the facts without a jury; the Court shall find the facts specially and state separately its conclusions of law thereon and direct the entry of the appropriate judgment; and in granting or refusing interlocutory injunctions the Court shall similarly set forth the findings of fact and conclusions of law which constitute the grounds of its action. Requests for findings are not necessary for purpose of review. On appeal, findings of fact shall be considered with due regard to the opportunity of the trial court to judge of the credibility of the witnesses. The findings of a master, to the extent that the Court adopts them shall be considered as the findings of the Court.

(RULE NO. 52 (b)—REVISION NO. 25-845.)

SEC. 13. (FINDINGS BY THE COURT: AMENDMENT.) Upon motion of a party made not later than ten days after entry of judgment as defined in section 25-1322 the Court may amend its findings or make additional findings and may amend the judgment accordingly. The motion may be made with a motion for a new trial pursuant to sections

25-1073 to 25-1078. Nothing herein contained shall be construed to supersede the power of the Court on its own motion to vacate or change its own judgment at the term at which it was entered. When findings of fact are made in actions tried by the court without a jury, the question of the sufficiency of the evidence to support the findings may thereafter be raised, whether or not the party raising the question has made in the district court an objection to such findings or has made a motion to amend them or a motion for judgment.

(RULE NO. 56 (a)—REVISION NO. 25-1009.)

SEC. 14. (SUMMARY JUDGMENT: FOR CLAIMANT.) A party seeking to recover upon a claim, counterclaim, or crossclaim, or to obtain a declaratory judgment may, at any time after the pleading in answer thereto has been served filed, move for a summary judgment in his favor upon all or any part thereof.

(RULE NO. 56 (b)—REVISION NO. 25-1010.)

SEC. 15. (SUMMARY JUDGMENT: FOR DEFENDING PARTY.) A party against whom a claim, counterclaim, or crossclaim, is asserted or a declaratory judgment is sought may, at any time, move for a summary judgment in his favor as to all or any part thereof.

(RULE NO. 56 (c)—REVISION NO. 25-1011.)

SEC. 16. (SUMMARY JUDGMENT: MOTION AND PROCEEDINGS.) The motion shall be served filed at least ten days before the time specified for the hearing. The judgment sought shall be rendered forthwith if the pleadings and admissions on file, if any, show that, except as to the amount of damages, there is no genuine issue as to any material fact and that the moving party is entitled to a judgment as a matter of law.

(RULE NO. 56 (d)—REVISION NO. 25-1012.)

SEC. 17. (SUMMARY JUDGMENT: CASE NOT FULLY ADJUDICATED ON MOTION.) If on motion, under sections 25-1009 to 25-1011, judgment is not rendered upon the whole case or for all the relief asked and a trial is necessary, the Court, at the hearing of the motion, by examining the pleadings and admissions before it, shall if practicable ascertain what material facts exist without substantial controversy and what material facts are actually and in good faith controverted. It shall thereupon make an order specifying the facts that appear without substantial controversy, including the extent to which the amount of damages or other relief is not in controversy, and directing such further

proceedings in the action as are just. Upon the trial of the action, the facts so specified shall be deemed established and the trial shall be conducted accordingly.

(RULE NO. 59 (a)—REVISION NO. 25-1073—Old No. 20-1142.)

SEC. 18. ("NEW TRIAL"; DEFINED: GROUNDS: POWER OF COURT UPON MOTION FOR NEW TRIAL.) A "new trial" is a re-examination in the same court of an issue of fact after a verdict by a jury, report of a referee, or a decision by the Court. Nothing in this section contained shall prevent the district from assigning, pledging, or otherwise hypothecating its revenues, incomes, receipts or profits to secure the payment of indebtedness to the federal government: Provided, that the state of Nebraska shall never pledge its credit or funds, or any part thereof, for the payment or settlement of any indebtedness or

obligation whatsoever of any district created under the provisions of this Act: Provided, however, that neither by sale under foreclosure, receivership, or bankruptcy proceedings, or by alienation in any other manner, may the property of such a district become the property or come under the control of any private person, firm, or corporation engaged in the business of generating, transmitting, or distributing electricity for profit. In order to protect and safeguard the security and the rights of the purchasers or holders of revenue debentures, notes, warrants, or other evidences of indebtedness issued by any district under the provisions of this Act, and amendments thereto, such district may agree with such purchasers or holders that in the event of default in the payment of interest on or principal of any such revenue debentures, notes, warrants, or other evidences of indebtedness, or in the event of default in performance of any duty or obligation of such district in connection therewith, such purchasers or holders, or trustee selected by them, may take possession and control of the business and the property of the district and proceed to operate the same and to collect and receive the income thereof, and after payment all necessary and proper operating expenses and all other proper disbursements or liabilities made or incurred, use the surplus, if any there be, of the revenues of the district as follows: 1st. In the payment of all outstanding past due interest on each issue of revenue debentures, notes, warrants, or other evidences of indebtedness so far as said net revenues will go, and paying pro rata the interest due on each issue thereof when there is not enough to pay in full all of the interest; 2nd. If any sum shall remain after the payment of interest as aforesaid, then in the payment of the revenue debentures, notes, warrants, or other evidences of indebtedness which, by the terms thereof, shall be due and payable on each outstanding issue in accordance with the terms thereof, and paying pro rata when the money available is not sufficient to pay in full. When all legal taxes and charges, and all arrears of interest, and all matured revenue debentures, notes, warrants, or other evidences of indebtedness, have been paid in full, the control of the business and the possession of the property of the district shall then be restored to such district. The privilege herein granted shall be a continuing one so often as the occasion therefore may arise. The Board of Directors of any district issuing revenue debentures, notes, warrants, or other evidences of indebtedness under the provisions of this Act, and amendments thereto, is hereby also authorized and empowered to agree and contract with the purchasers or holders thereof that in the event of default in the payment of interest on or principal of any such revenue debentures, notes, warrants, or other evidences of indebtedness issued, or in the event of default in the performance of any duty or obligation under any agreement by such district, the holder or holders of such revenue debentures, notes, warrants, or other evidences of indebtedness then outstanding shall be entitled as a matter of right, upon application to a court of competent jurisdiction, to have appointed

a receiver of the business and property of the district, including all tolls, rents, revenues, issues, income, receipts, profits, benefits, and additions derived, received or had thereof or therefrom, with power to operate and maintain such business and property, collect, receive and apply all revenue, income, profits and receipts arising therefrom, and prescribe rates, tolls and charges, in the same way and manner as the district might do. Whenever all defaults in the payment of principal of and interest on such revenue debentures, notes, warrants, or other evidences of indebtedness, and any other defaults under any agreement made by the district, shall have been made good, such receiver shall be discharged by the court and shall therefor thereupon surrender control of the business and possession of the property in his hands to the district; Provided, that any public power district or public power and irrigation district may sell to any public power district, public power and irrigation district, irrigation district, city or village any power plant, electric generating plant, electric distribution system, or any parts thereof, for such sums and upon such terms as the board of directors of such public power district or public power and irrigation district may deem fair and reasonable. Whenever any public power district or public power and irrigation district shall, as herein provided, acquire by purchase, lease, or otherwise, any electric distribution system, or any part or parts thereof, situated within or partly within any city or village, if any part of such system be within such city or village said acquisition shall be upon the conditions that such city or village may purchase, and such district shall be required to sell to such city or village, such electric distribution system, situated within or partly within such city or village, but not within the corporate limits of any other city or village, by paying to such public power district or public power and irrigation district, such sum as is fair and reasonable, including reasonable severance damages. If any city or village and such district shall fail to agree upon a price and terms, for the sale of such property to such city or village, the procedure for determining such price and terms of sale, and for compelling said sale shall be the same as is provided by sections 12-701 19-708 to 12-703 19-716, inclusive 1941 Cumulative Supplement to Compiled Statutes of Nebraska, 1921, and amendments thereof. In determining the price and terms of sale pursuant to such proceedings, the court shall take into consideration the revenues received by such district from and through that portion of its property being purchased by any such city or village in relation to the revenues received by such district from and through the entire system or division from which such acquired property will be detached so that no such municipality acquiring distribution facilities shall acquire the same at a price which is inequitable to other municipalities served by said district. Provided, that whenever any such district shall purchase or acquire the plant or property of an existing privately owned public utility furnishing electrical energy for heat, light, power or other purposes, for use within this state, such purchase shall be

upon the condition expressed in the contract of purchase and instrument of conveyance that such district, **so long as it shall continue to be the owner of such property**, shall annually pay out of its revenue, to the state of Nebraska, county, city, village and school district in which such public utility property is located, in lieu of taxes, a sum equal to the amount which the state, county, city, village and school district received from taxation, including occupation taxes, from such property or from the person, firm or corporation owning the same, during the year immediately preceding the purchase or acquisition of such property by such power district. The directors of any such district shall not incur any personal liability by reason of the making of such payments; and provided further, that whenever any such district shall purchase or acquire from a person, firm or corporation other than a privately owned utility, any real property used or useful for the purposes for which said district shall have been created, such district, **so long as it shall continue to be the owner of such real property**, shall annually pay out of its revenue, to the state of Nebraska, county, city, village, township and school district in which said real property is located, in lieu of taxes, a sum equal to the amount which such state, county, city, village, township or school district received from taxation from said real property from the person, firm, or corporation owning the same, during the year immediately preceding the purchase or acquisition of such real property by such power district or by such power and irrigation district; and provided further, that the county board, sitting as a board of equalization, may, in any year subsequent to the purchase or acquisition of such property by such power district or by such power and irrigation district, determine the amount that such district shall pay out of its revenue to the state of Nebraska and its several governmental subdivisions, as aforesaid, in lieu of taxes, **such which sum shall be as equity and justice may require**, notwithstanding the amount which said state and its said governmental subdivisions may have received from taxation during the year immediately preceding the purchase or acquisition of such real property; and provided further, the directors of any such district shall not incur any personal liability by reason of the making of such payments. All sums of money to be paid by said districts in lieu of taxes, as in this section provided, shall be paid at the times, places and to the tax collecting officers as now or may hereafter be provided by law for the payment of taxes, **so long as such district shall continue to be the owner of such property**, and said tax collecting officers are hereby authorized and directed to receive and collect the same, and distribute all moneys so received to the governmental subdivisions entitled thereto. The provisions of this section with respect to payments by public power districts and by public power and irrigation districts in lieu of taxes on said real property of such districts, shall not be applicable to rural electric transmission, distribution and service lines, substations and easements therefor.

**RESOLUTIONS**

**LEGISLATIVE RESOLUTION 32. Appreciation, Don Kellogg.**

Introduced by Fred A. Mueller, Charles F. Tvrdik and Tom C. Osborne:

WHEREAS, Don Kellogg has served as State House reporter for the Lincoln Star throughout the present legislative session; and

WHEREAS, he has been called to service in the Army of the United States, NOW THEREFORE

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEBRASKA IN FIFTY-SIXTH SESSION ASSEMBLED:

1. That this Legislature desires to express its sincere appreciation for the competent and impartial manner in which he has reported the deliberations of this body, and for his courteous and gentlemanly demeanor in his relations with the members thereof.

2. That this Legislature further desires to express its hope that in all of his undertakings he will be preserved by Providence from the fury of the elements and the violence of the enemy; that his services will contribute materially to our complete and early victory, and that his joyous reunion with his family will not be long delayed.

3. That this Resolution be spread at large upon the pages of the journal of this Legislature, and that a copy of the Resolution, suitably engrossed, be forwarded to Mr. Kellogg at his home in Lincoln, Nebraska, and that another copy similarly engrossed be forwarded to his wife, Mrs. Joanne Lyman Kellogg, at her home in Lincoln, Nebraska.

The motion prevailed unanimously.

**LEGISLATIVE RESOLUTION 33. Occupation Taxes of Corporations.**

Introduced by C. Petrus Peterson,  
Chairman, Banking, Commerce and Insurance

The Committee on Banking, Commerce and Insurance has inquired into the processes for the collection of occupation taxes payable by corporations. The initial responsibility rests on the office of the Secretary of State. The final responsibility rests on the office of the Attorney General.

The Secretary of State supplied the committee with the information shown by Exhibits "A" and "B" attached and stated that the uncollected items had been reported to the Attorney General. The Attorney General's office advises that the lists have not in recent years been forwarded to them by the Secretary of State.

Between the two offices there is an apparent failure to adequately enforce the collection of these taxes.

Be it therefore Resolved that the State Auditor be directed to investigate this item and report his findings to the Governor.

#### Message from the Governor

L. B. 166

May 10, 1943.

To the President, the Speaker, and Members  
of the Legislature.

Gentlemen:

I believe that L. B. 166 is about to come up for final passage by your Honorable Body. Before this is done I desire to call your attention to one provision of this bill which I believe makes it unworkable. The provision I refer to is the one which states that the salary of the secretary shall not exceed three hundred dollars per month.

In my judgment it will be impossible to find a person qualified for this particular job who will accept it with this salary provision. The success or failure of the program planned depends entirely upon the ability of the person chosen as secretary, who will really direct the affairs of the committee, representing Nebraska in Washington and before the industrial leaders of the nation. The spending of one hundred thousand dollars under the provisions of this bill will not automatically accomplish the purpose intended, and I feel that the Board which might be named under its provisions should have the right to pay whatever salary is deemed necessary to get the job done.

This bill really creates a State Chamber of Commerce, and it should be known that one local Chamber of Commerce in Nebraska has been paying sixty-five hundred dollars per year to its secretary while another has been paying eighty-four hundred dollars. This gives some idea of the problem involved, and I believe it proper and fitting that I should call it to your attention.

Respectfully submitted,  
(Signed) Dwight Griswold,  
Governor.

### MESSAGE FROM THE GOVERNOR

#### Veto L. B. 417

May 10, 1943.

To the President, the Speaker, and Members of the Legislature.  
Gentlemen:

I am returning without my approval, Legislative Bill 417. This bill provides for the establishment of wards for spastic persons of good mentality at the Institution for Feeble Minded at Beatrice.

My decision to veto this bill has been reached after careful consideration and it causes me sincere regret, for I am mindful of its worthy purposes. There is undoubtedly need for a place where spastic children can be cared for and properly trained, but there is serious doubt in my mind as to whether the Institution for Feeble Minded is the proper place to send children of sound mind. It is hardly practical, from the standpoint of the operation of that institution, to receive children of sound mind and to attempt to provide for them amongst those who are feeble-minded.

Of all unfortunates, those for whom this bill intends to provide are among the most difficult and the most expensive to care for and to train. Any attempt to provide for them should be based upon a complete knowledge of the number and needs of this class of people. A survey to secure such information would take some time, but the delay seems justified for it might reveal a much more satisfactory and more economical method of providing for them than the method anticipated by this legislation.

Economy is not the most important question involved in this matter, for neither the method of training, the schools, nor the medical program at the Institution for Feeble Minded is fitted to the needs of children with sound mentality. It appears impossible to adjust any of these things to the new facilities provided for by this bill. Consequently, if the purposes of this legislation were to be accomplished, the institution would be required to employ a medical man specialized along these lines, and also specially qualified teachers and attendants to care for, teach and train these spastic people. It is extremely difficult for the institution at Beatrice to secure help to carry on its present program, and it would seem almost impossible to expand its program and activi-

ties to cover this new class of patients. It appears doubtful if any qualified physician or teachers could be employed at the present time.

The problem of providing space for wards for both sexes and for housing the additional employees at the institution, seems too great to be solved at this time when new buildings are out of the question until after the war. The payment of higher salaries for doctors, teachers and attendants who would need to be especially qualified to care for this class of people, might easily cause dissension among the other employees of the institution.

This bill provides for the payment of the expense involved by the counties from which the children come, such expense to be pro-rated according to the number of children admitted. This cost might be enormous and even prohibitive if only a few children were to be cared for and no one knows how many there will be. This uncertainty, with the resulting uncertainty as to the cost would cause a condition so unsatisfactory that the counties might hesitate or refuse to send anyone to the institution.

Placing children of sound mind in the Institution for Feeble Minded, where they would be surrounded by feeble minded children and where the institution is administered by those who are trained for the care of feeble minded children, does not seem to be a logical solution. It could hardly be pleasing to the parents of spastic children, and most important of all, it would be unfair to the children of normal minds to place them in such surroundings. It would seem to me that this condition in itself would tend to defeat the main purpose which the bill seeks to accomplish.

I do not know the best answer to the apparent need which you have recognized and for which you have, with credit, attempted to provide. Possibly additional space at the Orthopedic Hospital would be the solution, if and when such space could be provided. Possibly out-state institutions could be utilized in some manner and the counties authorized to pay the charges, or perhaps each county could make adequate provisions at home at no greater cost by employing domestic help for the family or families involved or by providing boarding-home care for the unfortunate person. The survey I have suggested should provide the facts upon which a proper solution could be based.

The difficulties of administration, the uncertainty of cost, the doubtful benefits to be gained, the unpleasant thought of sending sound minds to the Institution for Feeble Minded, the probability that a better plan might be discovered after a survey and the fact that it is now extremely difficult to operate existing facilities for the unfortunate of the state—

all these things combined lead me to the conclusion that this bill should not have my approval.

Respectfully submitted,  
(Signed) Dwight Griswold  
Governor

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 34. Electric Power Investigation Committee, 1943.**

Introduced by George I. Craven, Sam Klaver, Sidney J. Cullingham, James H. Anderson, Tom C. Osborne, Arthur Carmody, Harry A. Foster, E. M. Neubauer, J E Conklin, Daniel Garber, Carl P. Jeffords, George C. Weborg, Louis M. Jeppesen, Tony Asimus.

WHEREAS, in the year 1933 the Legislature, by Senate File No. 310, now sections 70-701 to 70-717, inclusive, C. S. Supp., 1941, provided for the organization of public power and public power and irrigation districts in this state; and

WHEREAS, at the time of the enactment of Senate File No. 310 above mentioned, it was contemplated by the Legislature that the districts formed under the provisions of said act would be organized and operated for the purpose of producing and supplying electrical energy for a relatively small part of the state, either within the districts or in the immediate vicinity thereof, and it was not contemplated that one district would own the distribution systems and other districts the generating facilities; and

WHEREAS, it was originally contemplated by Senate File No. 310 that the public power districts and public power and irrigation districts organized and operated under the act, should act as a yardstick and compete with the private power companies in the state in the production and sale of electrical energy; and

WHEREAS, using the form of organization afforded by Senate File No. 310 as a vehicle, the original scope and purpose contemplated by the Legislature was tremendously enlarged and materially altered, and certain financial interests have acquired and now own, control and operate the major part of the electric distribution systems in the state, and the generating facilities are largely controlled and operated by a contractual combination among the districts, known as a power pool; and

WHEREAS, certain financial interests have used the form of organization provided by Senate File No. 310 to acquire and consolidate into one gigantic system the electric facilities of all of the large private power companies in the state except one, and have entered into negotiations for the purchase of that one; and

WHEREAS, many of such purchases were made from private power companies at a price far in excess of actual valuation of the

property purchased, and the cost thereof must be borne by the electric rate payer in Nebraska; and

WHEREAS, the enlargement of the scope of the original purpose of Senate File No. 310 has created new and additional problems, which require legislative action; and

WHEREAS, financial interests promoting public power districts and public power and irrigation districts and legislation affecting such districts, and privately owned public utilities selling electrical energy that desire to sell their electric properties to public power districts at a price far in excess of its value, have engaged extensively in lobbying activities at the Nebraska Legislature, and elsewhere, and said lobbying activities should be thoroughly investigated at the same time and for the same purpose as the other matters herein set forth, and as an integral part thereof; and

WHEREAS, it is expedient as a basis for legislation that the activities of public power districts, public power and irrigation districts, private power companies, and financial interests promoting said districts and companies, should be investigated as fully and promptly as may be, in order that the public policy of the state may be determined with reference thereto, and necessary legislation enacted;

NOW, THEREFORE, BE IT RESOLVED BY THE FIFTY-SIXTH SESSION OF THE NEBRASKA LEGISLATURE:

1. That the Speaker of the Legislature forthwith appoint a committee of five members from the body of this Legislature, which committee shall be known and designated as the "Electric Power Investigation Committee, 1943". The committee herein created shall serve until the next regular session of the Legislature, and shall proceed after the adjournment of this session of the Legislature, to investigate and examine into the following matters: (1) The business and affairs of public power districts, public power and irrigation districts, and any other public body and commission created for the purpose of the generation, distribution and sale of electrical energy in this state; (2) The purchase by public power districts and public power and irrigation districts of electric power plants, distribution systems and transmission lines from private power companies in this state; (3) The financing of such purchases by public power districts and public power and irrigation districts within this state; (4) The issuance of general revenue bonds and general obligation bonds by public power districts, public power and irrigation districts, or other political subdivisions of this state in connection with such purchases; (5) The fees and expenses paid to attorneys, agents, fiscal agents and intermediaries in connection with the purchase, financing and issuance of

bonds to acquire electric power plants, distribution systems and transmission lines in this state, and the money or profit made in consummating said purchases and in handling such bonds; (6) The political activities of public power districts, public power and irrigation districts and privately owned public utilities selling electrical energy, their officers, agents and servants, and the fees and expenses paid in connection therewith; (7) The business and affairs of the Nebraska Public Power System, sometimes referred to as the Nebraska Public Power Pool, and the making of agreements for division of territory in this state, and the exchange and interchange of electric current and facilities brought about by such public power pool; and (8) All other matters necessary to afford the Legislature a clear perspective and view of the entire electrical power situation in this state as the basis for enactment of necessary legislation. The commission herein created shall recommend to the next regular session of the Legislature a definite policy and concrete legislative program, respecting the regulation of public bodies selling and distributing electrical energy in this state, and the lobbying activities of such bodies and others in connection therewith.

2. In carrying on the investigation herein authorized, the committee shall be entitled to call upon and have the assistance of the offices of the Attorney General, the Auditor of Public Accounts, the State Engineer, and any other public official paid out of state funds.

3. That the committee is authorized and empowered to require and enforce the attendance of witnesses, and the production of books and papers, to administer oaths, and to employ counsel, stenographers, clerks and such other members as may be necessary for the purpose of investigation; that the committee shall have full power and authority, and it shall be its duty to prosecute its inquiries in any and every direction and by any and every means in its judgment necessary or proper to enable it to obtain information in regard to its report on matters contemplated in this resolution; that, whenever, in its judgment, the public interest demands, the committee may require any public officer, deputy, assistant or any public employee paid, directly or indirectly, by means of public funds, or any individual, to testify before them and to produce books, papers or other documents in obedience to the subpoena of said committee.

4. That a sum not exceeding twenty-five thousand dollars (\$25,000) shall be appropriated by the Legislature out of any moneys in the general fund, not otherwise appropriated, to carry out the provisions of this resolution, said appropriation to be provided for it in the general appropriation bill enacted by this session of the Legislature.

**REPORT—Committee on Appropriations**

May 7, 1943

The Appropriations Committee was called to order at one o'clock p.m. pursuant to the call of the chairman. Present Senators: Senators Reavis, Tvrdik, Norman, Heiliger, Brodahl, Mueller, Hanna, Garber, Crossland, Jeffords and Greenamyre.

The purpose for which the meeting was called was by reason of a request made by the Department of Educational Lands and Funds and the office of the Attorney General by reason of the condition presenting

itself concerning the permanent school land funds of the State of Nebraska.

On April 2, 1943, the Supreme Court filed the opinion in the case of State ex rel. Johnson v. The Central Nebraska Public Power and Irrigation District which opinion is reported in 12 S. C. J. 288. A copy of a memorandum prepared by the attorney general's office concerning the question involved now presenting itself by reason of this opinion is attached hereto.

The Department of Lands and Buildings and the attorney general's office appeared at said hearing and presented the question involved which as stated by the department heads is: The school lands in the State of Nebraska have been taken and used by railroad companies, the Department of Highways and Irrigation, and by public power districts without condemnation proceedings having been instituted or filed and without compensation having been paid to the permanent school fund for the acquisitions of said lands.

The office of the attorney general suggested that approximately 111 suits will be necessary to determine and collect the amounts due to the permanent school fund for the school lands heretofore taken; that the estimated expense incidental to the commencing of this work is estimated as follows: Salary of additional part time surveyor \$1800; traveling expenses of part time surveyor \$1800; additional office expense \$360; and court costs, salary of deputy attorney general, traveling expense, witness fees and other court costs \$10,000. The estimates recommended are only estimated amounts for the work which can be commenced and accomplished during the biennium from July 1, 1943, to and including July 1, 1945. It is not expected that this work can be completed during the next biennium and it is felt that any funds which may be necessary after the next biennium should be left for the next session of the Legislature to determine.

Both departments stated to the committee that while it was impossible to determine the exact amount of recovery which will be had, that a very conservative estimate of recovery would be at least \$300,000 in funds due to the permanent school fund.

After full hearing by the committee, by a motion duly made and seconded, the committee by unanimous vote recommended to the Legislature an increase of the appropriation for the Board of Educational Lands and Funds in the following amounts: For Salary and wages of part time surveyor \$1800; for maintenance, including expense of part time surveyor, and additional office expense \$2160; and for salary and

expense for litigation the sum of \$10,000, and have prepared and offer herewith amendments in accordance with their conclusions and recommendations.

**MEMORANDUM In Re School Lands Taken by Irrigation Districts,  
Railroad Companies, Highways, Without Compensation**

Under date of April 2, 1943, the Supreme Court filed its opinion in the case of State ex rel. Johnson v. The Central Nebraska Public Power and Irrigation District, said opinion being reported in 12 S. C. J. 288. In said case the court held that the statutes which gave to public power and irrigation districts the right to construct their canals, reservoirs, etc. upon the school lands of the state without compensation were unconstitutional and void. The court held:

“The legislature is without power to make a grant in fee of, or an easement over, public school lands without compensation for the damage for such taking or use.

“The state as trustee is without power through legislative means or otherwise to bestow a special benefit upon the defendant or any other person or corporation, public, or private, at the expense of the cestui que trust, the public school system of the state.”

It follows from the holding in the above case that the right of way across school lands cannot be donated to railroad companies or other private corporations and it is our opinion that the legislature is without power to grant right of way to build highways across school lands at least where such highways do not follow section lines. While the statutes provide a method whereby railroads may acquire the right of way across school lands through condemnation, a great deal of such land has been taken without compensating the school fund.

Mr. Hugh Dillon, State Surveyor, has made a brief preliminary search to determine the amount of school lands which have been taken without compensating the school fund. Mr. Dillon in his report states that the same is incomplete and that it will require considerable time in order to make a complete search in the matter. His report states that he has determined that railroad companies have taken land for right of way purposes in 134 sections in 37 different counties. The Department of Roads and Irrigation has taken land for right of way purposes across school lands (not including highways built on section lines) in 107 sections in 39 different counties. Irrigation districts have taken land for canals, reservoirs and drainage ditches in 56 sections in 12 different counties.

This report does not include lands that were later deeded to private individuals and it is estimated that when a search has been made to determine this that it will double the amount of land taken as far as railroad companies are concerned. In *Chicago, B. & Q. R. Co. v. Englehart*, 57 Neb. 444, 77 N. W. 1092, our court held that the purchaser of school lands upon which the railroad companies had acquired an easement could not collect for such easement. The court did say this, however:

"The right of the state to permit a railroad company to go upon its lands and construct and operate a line of road thereon cannot be seriously questioned. It is possible that the right to compensation for such privilege cannot be waived or abandoned, but if it cannot, then the state may enforce such right whenever it chooses to do so."

This authority, together with the ruling of the court in *State v. The Central Nebraska Public Power and Irrigation District*, *supra*, would seem to establish without question of a doubt the right of the state to now collect for lands taken by railroad companies without compensation even though such lands have later been deeded.

The matter of collecting for these lands so taken has thrown an additional burden upon this office and upon the office of the Board of Educational Lands and Funds. Even with combining the lands taken by any particular railroad or irrigation district, etc., within one county, in one action, it seems apparent that no less than 150 separate lawsuits will be required. It is difficult to estimate the cost of this during the next biennium but there will be considerable expense and court costs, traveling expenses, witness fees, etc. and additional expenses will be necessary for the State Surveyor since it will be necessary that a survey be made of all the lands taken which perhaps will necessitate the help of an assistant to the State Surveyor.

It is impossible to determine at this time the amount that the school fund will be enhanced as a result of this decision of our court, but it is our opinion that such sum will amount to several hundred thousand dollars.

Mr. Greenamyre offered the following amendment which was adopted by unanimous consent:

1. Amend section 20 of the Standing Committee amendment by striking all of lines 35 to 38, inclusive.
2. Amend section 20 of the Standing Committee amendment by inserting after line 59 the following:

"Human tuberculosis, state survey, reappropriate unexpended balance as of June 30, 1943, in auditor account number 161, then appropriate from the unexpended balance as of June 30, 1943, in auditor account 165 15,500.00

Control of venereal diseases and expense of administration of legislative bills 40 and 41, fifty-sixth session of the Nebraska State Legislature, 1943, appropriate from the unexpended balance as of June 30, 1943, in auditor account 165 30,000.00".

In connection with the last above amendment, the Clerk read the following:

#### **STATEMENT—Committee on Appropriations**

The Committee on Appropriations met at the Governor's Hearing Room, Capitol Building, April 29, 1943, at 1:00 o'clock p.m. for the purpose of holding public hearing upon motions offered and to be offered by Senator C. Petrus Peterson and Joseph Reavis, to the general appropriations bill, L. B. 96, Section 20, Department of Health, which meeting was adjourned at 3:00 o'clock p.m. until Monday evening, May 3, 1943, at 8:00 o'clock p.m., for further hearing. The committee in adjourned hearing at said time and place, met and concluded its public hearing.

After said public hearings, on said last mentioned date at said place, in executive session, took the following action, and make the following recommendations to the Legislature on the matters so presented.

#### **Motion No. 1**

Said motion read as follows:

"I move to amend Section 20 of Standing Committee Amendment Lines 60 and 61 by striking the following: "\$10,000 from" and by inserting between lines 64 and 65 the following: "said funds shall be available for laboratory expense, communicable disease control and health services".

There will be approximately \$90,000 unexpended balance in the Vital Statistics account which under the appropriations bill as recommended by the committee will lapse into the General Fund in the State Treasury as of July 1, 1943. The Department of Health, by the proposed motion, wishes to have the balance, which on May 3, 1943, was \$97,588.25 appropriated for the purpose of public health services, laboratory expense, and communicable disease control.

After full consideration of the request, after public hearing, the Appropriations Committee recommends to the Legislature that the motion not be adopted.

### **Motion No. 2**

Said motion read as follows:

"I move to amend Section 20 of Standing Committee Amendment to L. B. 96, by inserting between lines 69 and 70 the following, as an appropriation from "General Fund Property Tax Levy" an additional item as follows: "control of Venereal diseases and expenses of administering L. B. 40 and L. B. 41, enacted by the 1943 session of the Legislature, \$30,000."

After consideration of the Motion, after public hearing, the committee adopted the following recommendation to the Legislature:—That \$30,000 be appropriated for control of Venereal disease and administration of L. B. 40 and L. B. 41, and that said sum be appropriated from unexpended balance in Vital Statistics Account, Auditors Account No. 165, as of June 30, 1943.

After discussion, the committee adopted a motion duly seconded, directing the introduction of a Legislative bill or bills which, if enacted into law, will prohibit any charge on fee being charged by any doctor or other person taking blood for the purposes provided for and intended by L. B. 40 and L. B. 41, in excess of \$1.00 per person for each taking of blood.

### **Motion No. 3**

Said motion read as follows:

"I move to amend L. B. 96, Section 20, Line 38, of Standing Committee Amendment by striking the figure \$8,000 and by inserting in lieu thereof the figure "30,000".

After consideration of the Motion, after public hearing, the Committee adopted the following recommendation to the Legislature:—That \$15,500, plus the unexpended balance in Auditor's Account No. 161, be appropriated for the survey of human tuberculosis, to be appropriated from the unexpended balance in the Vital Statistics Account, Auditor's Account No. 165, as of June 30, 1943.

The Committee adopted all action taken by unanimous vote. The Committee feels that no further state property tax or cash funds

should be used for the purposes requested, other than those provided in the Committee amendments to L. B. 96, and as herein recommended, for the Department of Health, for the reasons that it is felt that the public health services should not be expanded beyond the work which can be accomplished by funds made available by the bill, and as recommended herein, and such federal funds as will be made available to the department, for public health work.

Amendments to comply with the recommendations herein, and Legislative bills to provide for the amendments to be made under L. B. 40 and L. B. 41, are made a part of this report.

Referred to E and R for engrossment.

#### MESSAGE FROM THE GOVERNOR

##### Legislative Bill 225

May 17, 1943.

To the President, the Speaker, and Members of the Legislature.

Gentlemen:

I desire to call your attention to a serious error that exists in Legis-

lative Bill 225, which is before me for signature. The title of this bill refers to "a county high school organized under Article 10, Chapter 77". Evidently the introducers are referring to "Article 10, Chapter 79", but as drawn the bill is not correct.

The form of the ballot provided in the bill is also improper. It provides for voting

"For the discontinuance and dissolution \* \* \*."

"Yes" ☐

"Against the discontinuance and dissolution \* \* \*."

"No" ☐

This means that a vote "yes" is for the discontinuance and then the "no" vote would refer to the statement "against the discontinuance and dissolution \* \* \*." The latter vote would consist of two negatives and could be construed as voting "no" on the question of being "against". In other words both votes would favor the discontinuance and dissolution of the district.

A broader question, however, is involved in this bill, and it might provide a means for creating more high school districts in Nebraska when it would appear that the modern tendency is toward more consolidations and fewer districts. Many interested parties have told me during the past two years that we are trying to support too many schools now.

I understand that this bill arises because of conditions existing in one certain county. If that is true, that problem might better be solved by amending Section 79-1014 to provide that the county high school need not be located at the county seat and giving the Board of Regents authority to fix its site. It must be remembered that a bill intended to solve difficulties in one county will, however, apply to all others and may cause trouble there.

The principal reason for this message, however, is to call the attention of the Legislature to the typographical errors which are carried in the bill.

Respectfully submitted,  
(Signed) Dwight Griswold,  
Governor.

**MESSAGE FROM THE GOVERNOR****Veto—Legislative Bill 166**

May 17, 1943.

Mr. President, Mr. Speaker, and Members of the Legislature.

Gentlemen:

I am returning without my approval Legislative Bill 166.

One hundred five thousand dollars is a large sum of money, and I do not feel it should be appropriated, and certainly it should not be spent, unless we are certain that good results will be accomplished. In my judgment, the provision that no salary can be paid in excess of three hundred dollars per month makes this bill impractical. Special qualifications would be necessary to enable the secretary of this council to be of real service to the people of Nebraska, and I am certain that a suitable person could not be employed with this salary limitation. It has been suggested that additional salary could be cared for by private contributions. It is doubtful if such action would be legal, and surely it would be contrary to good public policy as the employee should be under obligation only to the people of the entire state.

Even if L. B. 166 is not enacted, it must be remembered that the appropriation bill provides for the continuation of the Chemurgic Council, and the further gathering of information as to the better use of our agricultural products. It is also my plan to call a meeting next fall of interested parties to form an unofficial council representing the entire state to plan for a better future for Nebraska. I am sure that such activity can be carried on without the expenditure of public funds.

Many of Nebraska's best farmers and most progressive-minded and best citizens have supported L. B. 166. I feel, however, that most of its important work will be continued by the Chemurgic Council and through the formation of the agency which I have suggested.

In view of these conditions, I am therefore declining to approve this legislation.

Respectfully submitted,  
(Signed) Dwight Griswold,  
Governor.

**LEGISLATIVE RESOLUTION 34.** The Committee recommended that the Resolution be considered as amended.

### Amended Resolution 34

WHEREAS, in the year 1933 the Legislature, by Senate File No. 310, now sections 70-701 to 70-717, inclusive, C. S. Supp., 1941, provided for the organization of public power and public power and irrigation districts in this state; and

WHEREAS, at the time of the enactment of Senate File No. 310 above mentioned, it was contemplated by the Legislature that the districts formed under the provisions of said act would be organized and operated for the purpose of producing and supplying electrical energy for a relatively small part of the state, either within the districts or in the immediate vicinity thereof, and it was not contemplated that one district would own the distribution systems and other districts the generating facilities; and

WHEREAS, the enlargement of the scope of the original purpose of Senate File No. 310 has created new and additional problems, which require legislative action; and

WHEREAS, under this legislation, problems have arisen between Public Power Districts and municipalities and between large and small Public Power Districts; and

WHEREAS, at the present legislative session statutes on this subject are being amended and new legislation is being enacted, the actual results of which should be studied; and

WHEREAS, it is desirable that all of the activities of existing Public Power Districts, both in the past and for the future, including the activities of financial representatives dealing with or representing the districts in the sale of securities, acquisition of properties or other transactions and including all activities of the districts in seeking to influence the determination of public policies by municipalities or the election of persons to public office or to directorships in the districts, should be studied as a basis for future legislation; and

WHEREAS, such studies are the function of the Legislative Council under existing laws of the state with appropriate authority;

NOW, THEREFORE, BE IT RESOLVED BY THE FIFTY-SIXTH SESSION OF THE NEBRASKA LEGISLATURE:

A. That the Legislative Council be directed to examine into and make a study of the following matters:

(1) The business and affairs of public power districts, public power and irrigation districts, and any other public body and commission created for the purpose of the generation, distribution and sale of electrical energy in this state;

(2) The purchase by public power districts and public power and irrigation districts of electric power plants, distribution systems and transmission lines from private power companies in this state;

(3) The financing of such purchases by public power districts and public power and irrigation districts within this state;

(4) The issuance of general revenue bonds and general obligation

bonds by public power districts, public power and irrigation districts, or other political subdivisions of this state in connection with such purchases;

(5) The fees and expenses paid to attorneys, agents, fiscal agents and intermediaries in connection with the purchase, financing and issuance of bonds to acquire electric power plants, distribution systems and transmission lines in this state, and the money or profit made in consummating said purchases and in handling such bonds;

(6) The political activities of public power districts, public power and irrigation districts and privately owned public utilities selling electrical energy, their officers, agents and servants, and the fees and expenses paid in connection therewith;

(7) The business and affairs of the Nebraska Public Power System, sometimes referred to as the Nebraska Public Power Pool, and the making of agreements for division of territory in this state, and the exchange and interchange of electric current and facilities brought about by such public power pool;

(8) The activities of Public Power Districts or Peoples Power Districts organized hereafter under existing statutes or laws enacted at this session as to any of the items above enumerated and in addition any proposed acquisition of electric utility systems on the basis of voluntary purchase and sale, the information supplied to the electorate in any referendum election with reference to any such proposed acquisition and to initiate a convening of the Legislature into Special Session, if the conditions developed indicates the necessity therefor; and

(9) All other matters necessary to afford the Legislature a clear perspective and view of the entire electrical power situation in this state as the basis for enactment of necessary legislation. The Legislative Council shall recommend to the next regular session of the Legislature a definite policy and concrete legislative program, respecting the regulation of public bodies selling and distributing electrical energy in this state, and the lobbying activities of such bodies and others in connection therewith.

B. The Legislative Council shall appoint a subcommittee of five of its members and shall name a chairman thereof, and said investigation, examination and study shall be made by the subcommittee under the supervision of the Legislative Council. No individual member of the Legislative Council shall make or issue statements concerning the investigation and all statements relative thereto shall be made in the name of the Legislative Council. All hearings held shall be public.

The examination and investigation of the subcommittee shall be completed and final report made to the Legislative Council on or before October 1, 1944.

C. In carrying on the duties herein authorized, the Legislative Council and its subcommittee shall be entitled to call upon and have the assistance of the offices of the Attorney General, the Auditor of Public Accounts, the State Engineer, and any other public official paid out of state funds.

D. In carrying out the duties imposed by this resolution, the Legislative Council shall have all of the powers conferred upon it by the provisions of Article 5, Chapter 50, C. S. Supp., 1941, and shall also be authorized and empowered to require and enforce the attendance of witnesses, and the production of books and papers, to administer oaths, and to employ counsel, stenographers, clerks and such other members as may be necessary for the purpose of investigation. The Legislative Council shall have full power and authority, and it shall be its duty to prosecute its inquiries in any and every direction and by any and every means necessary or proper to enable it to obtain information in regard to its report on matters contemplated in this resolution; that, whenever, in its judgment, the public interest demands, the Legislative Council may require any public officer, deputy, assistant or any public employee paid, directly or indirectly, by means of public funds, or any individual, to testify before them and to produce books, papers or other documents in obedience to the subpoena of the Legislative Council. ### **SELECT COMMITTEE REPORTS**

#### **Investigation, Expense of Irrigation Rights**

This litigation has to do with the protection of water appropriations on the North Platte River in Nebraska. The North Platte River rises in the North Park area of northern Colorado and flows in a northerly direction to a junction with the Sweet Water River west of Casper in Wyoming. From thence it flows in an easterly direction entering Nebraska east of Torrington, Wyoming. In 1920 representatives from Colorado, Wyoming and Nebraska held a series of conferences discussing what division for irrigation purposes should be made between the three states. These conferences, however, did not result in any agreement as to policy.

In 1933 the Attorney General of Wyoming and Senator Kendrick of

that state obtained a tentative approval from Congress for the Casper-Alcova project. Wyoming wanted 70,000 acre-feet of North Platte river water for the Casper-Alcova development on the basis of 1 second foot for 70 acres. At this point Nebraska sought an agreement between the states. Colorado was opposing the development of the Casper-Alcova project if Wyoming were given reclamation money. The conferences held between the three states resulted in no agreement.

Governor Cochran, Mr. Willis and Mr. Paul Good, representatives of Nebraska, had no objections to the development of the Casper-Alcova Project provided the Nebraska priorities were recognized. To this demand Wyoming would make no definite agreement. In the year 1934, there being a shortage of water for Nebraska appropriators, the State Engineer began an investigation of the early priorities.

Wyoming would not consent to recognize our priorities unless a mutual basis could be reached, and as Nebraska has no water to give Wyoming, this basis for a compact could not be reached.

At this point Nebraska started suit, in which action the Nebraska representatives and state officials were agreed. Copies of the history of the appropriations and of the attempts to reach an agreement were sent to the attorneys who represented the various irrigation companies. Ten or fifteen of the lawyers were present at a conference at which this summary was put in final form for filing.

Colorado was not in the suit at this point, since she had only a small part of the water in controversy and it was not felt necessary to bring Colorado into the suit. Wyoming filed a motion to dismiss the suit in 1935. The Supreme Court, however, required Wyoming to answer. The suit was brought to attempt to force Wyoming to recognize the Nebraska priorities of earlier years. In 1935 the court was asked to appoint a special master. M. J. Daugherty of Minnesota was appointed. Mr. Good represented Nebraska and R. R. Rose of Casper was appointed for Wyoming. Mr. Rose filed a cross petition bringing Colorado into the case and this, of course, delayed matters until Colorado could file. At this point Governor Miller of Wyoming called for a conference to make a compact. This conference failed because Wyoming refused to recognize any priority of appropriation for Nebraska. Nebraska contended that if the Casper-Alcova project were to take water in preference to her seniority appropriations, not enough would be left to satisfy our water-users; while Wyoming contended that if these Nebraska priorities were recognized, she would not have sufficient water for the Casper-Alcova project without accumulated storage. The Secretary of the Interior had the council for that Department make a study of water supplies and of priorities and the council decided that Nebraska was not entitled to

the 1904 priorities. This was followed by a field trip over the irrigation area including Denver, Fort Collins, Casper and down to Grand Island, as it was thought without an inspection of the whole territory the complete situation could not be understood.

In prosecuting the suit it was necessary for Nebraska to prove the priority date of every appropriation and the operation of every irrigation canal, thus developing a situation where there were really 70 or 80 suits. Weeks of testimony were taken at different points or places in the area mentioned. Wyoming claimed that Nebraska sought to include an excessive area. For example, one canal covering from 60,000 to 63,000 acres in Nebraska was estimated by Wyoming at 35,000 acres. Weeks were spent by the council for Wyoming examining the Nebraska records and interrogating the Nebraska Water Commissioner, Mr. Willis. On the other hand, Nebraska had to prove that Wyoming was taking water out of turn in substantial quantities and to show how much Wyoming was entitled to, what were their priorities and how much they actually took. Climatic conditions as to rain fall were involved. Crop injuries under different conditions had to be estimated. The question of underground waters and possible pump irrigation was also involved as the law states you must use your own resources first.

It was not until November, 1942, that all these matters of preparation were finished. Meanwhile, the United States Government had entered the suit claiming that its rights through the reclamation service were involved and contending also that it had the right of overseeing any distribution of water between the states. It also claimed to own all unappropriated waters and that in 1924, when the Government North Platte project was started, it had reserved water for its control exclusively, independent of the state. In January, 1943 these matters were argued before Mr. Daugherty in St. Paul. Three weeks were consumed for the presentation before the master. The master will make a report of his proposed decision and time will be given to the contending parties to extract the points they wish to present before the United States Supreme Court. This report by the master will be ready early this summer. Within the next few months the case upon the reports should be argued before the Supreme Court pending final decision.

During the 1939-1941 biennium, Mr. John L. Riddell has been added to the legal staff as Assistant to Mr Paul F. Good. This addition was made for two reasons given; (1) that in case of some emergency, preventing the action of Mr. Good, Mr. Riddell might continue his work; (2) to assist in the growing legal work in the case. At various times other men were engaged in special legal work on the case. The chief items of expense have gone to the following persons:

Mr. Good .....	\$42,938.61
Mr. Riddell .....	11,516.75
Mr. R. T. Meeker, Engineer.....	39,586.61
Mr. Marion Ball, Engineer.....	16,720.79

The balance of the total of \$162,000.00, appropriated by the different legislatures, has gone for clerical, legal, and miscellaneous expenses. A statement from Wyoming, through the Nebraska Legislative Reference Bureau, shows that Wyoming has spent upon this suit approximately the same amount as has Nebraska. Colorado has returned to the inquiry no exact statement as to its expenditures, which must have been considerable.

The Appropriation Committee has recommended in its budget an additional \$21,000.00 for the prosecution of this case. It is to be expected that a final decision in this case will be reached during the ensuing biennium.

## Message from the Governor

**VETO—Legislative Bill 247**

May 24, 1943.

To the President, the Speaker, and  
Members of the Legislature.

Gentlemen:

I am returning without my approval Legislative Bill 247.

This bill is intended to serve a worthy purpose, but the best legal advice I have had in regard to it has convinced me that it is not constitutional. It would serve as an amendment to the indeterminate sentence law without referring to the section amended. Even if not unconstitutional, it might also change the provisions of that act so that it would not carry out its intended purpose.

I am, therefore, vetoing this bill with the suggestion that if it is your desire to have heavier penalties for criminals convicted more than once, further study be given the matter before the next legislative session.

Respectfully submitted,  
(Signed) Dwight Griswold,  
Governor

### Message from the Governor

#### Permanent School Fund

May 25, 1943

To the President, the Speaker, and  
Members of the Legislature.

Gentlemen:

Acting in compliance with instructions given by the Board of Educational Lands and Funds at a meeting held May 24, 1943, we wish to submit the following report showing the present status of the Permanent School Fund resulting from certain actions taken by said Board since the passage and adoption of L. B. 97 under date of March 30, 1943:

The State of Nebraska holds in its various funds the following bonds:

Government bonds .....	\$ 7,753,300.00
Nebraska State subdivision bonds.....	\$ 6,693,108.32
Total .....	\$14,446,408.32

An audit made by the State Auditor's office, showing a loss of \$685,566.83 to the Permanent School Fund over the period January 1, 1869 to June 30, 1939, was submitted to the present Legislature under date of January 6, 1943. This loss was definitely recognized by the passage of L. B. 147. Subsequent to the passage of this bill, L. B. 85 was passed which legalized an error in bookkeeping and reduced the recognized loss to \$503,929.10.

As the result of an exchange of tax free Government bonds for taxable bonds, the sum of \$207,997.50 has been credited to the capital gain account; also the sum of \$50,956.72 has been credited to the capital

gain account by reason of the results of a sale of other bonds held May 3, 1943. This makes a total capital gain of \$258,954.22 which has been credited to the Permanent School Fund to offset past losses. After crediting this amount there still remains the sum of \$244,974.88 to be recovered.

At a meeting of the Board of Educational Lands and Funds held May 24, 1943, the following Resolution was adopted:

"Moved by Wayne O. Reed, seconded by Frank Marsh that the Board of Educational Lands and Funds recommend to the Legislature that inasmuch as no payments of principal have been made on the North River Irrigation District bonds held by the State of Nebraska since the original purchase of same more than twenty years ago; and since no payment of interest has been made since July 25, 1939, that the principal investment of the same in the sum of \$145,000 be considered as a capital loss and that such charge be made upon the records of the State Treasurer and the records of the Board of Educational Lands and Funds; that any future collections made on this issue be considered as a capital gain and credited to the Permanent School Fund."

Motion unanimously carried.

The recognition of the foregoing recommendation by the present Legislature would tend to increase the total loss to be recovered to the sum of \$389,974.88.

In addition to the foregoing report we wish to state that Hugh Dillon, State Surveyor, has recently reported that all Nebraska State school land has now been classified, mapped and reappraised in conformity with Section 72-204, CSN Supplement 1939. This is the first time in history that all school land has been classified, mapped and reappraised and we take great pleasure in being able to make such a report.

Respectfully submitted,  
Board of Educational Lands and Funds  
By Dwight Griswold, Chairman

### SELECT COMMITTEE REPORTS.

#### Investigation of Highways—L. R. 31

Your committee appointed by the president of the Legislature pursuant to Legislative Resolution No. 31, adopted May 4th, 1943, to investigate the highways of Nebraska, met at 8 o'clock P. M. in the capitol, on call of the chairman and after public notice thereof had been given for five days, with all members present: Gantz, chairman, Garber, Osborne, Hanna. Senators Conklin, Asimus and Weborg were also present, as well as State Engineer Wardner Scott and members of his staff, and Mr. Lloyd C. Thomas, of Kearney.

Various witnesses were called, and evidence received from Mr. Thomas, Senators Conklin and Weborg, and State Engineer Wardner Scott and several members of his staff, and the matters in connection with the condition of Nebraska Highways were fully discussed, and as a result thereof, your committee begs leave to report as follows:

1. On certain sections of bituminous roads there are bad conditions existing where the roads are rough, sometimes rutted, with un-

stable shoulders and cracking in some places entirely across the bituminous highway section. Such condition does not exist the full length of any bituminous highway, but appears in certain and separate sections thereof. Such condition is in the opinion of your committee caused in part by heavy and unusual truck operations, traffic and speed thereon, and in part as the natural consequence during and following a winter season. That the condition of such highways in some sections is such as to endanger life and property in the use of such highways. That these highways need immediate repair.

2. That on January 1st, 1943, there were 2645 miles of bituminous roads on the state highway system of Nebraska, divided into the general following classifications, showing approximate cost of construction of each:

	Miles	Per Cent	Cost per mile
1. Surface treatment	178	6.7	\$ 1,100.00—\$ 1,500.00
2. Surface treatment on clay-gravel base	932	35.2	3,500.00— 7,000.00
3. Surface treatment on special base	183	6.9	7,000.00— 15,000.00
4. Bituminous mat	768	29.1	4,000.00— 7,000.00
5. Bituminous mat on clay-gravel base	264	10.0	7,000.00— 12,000.00
6. Bituminous mat on special base	15	0.6	9,000.00— 20,000.00
7. Bituminous sands	278	10.5	7,000.00— 10,000.00
8. Unclassified re-construction sections	27	1.0	

3. That the cost of construction of bituminous roads of any one of the above classifications is dependent upon several factors, among which are the following: width of the various elements of the surfacing, thickness of bituminous mat or surface treatment, depth and type of base course, costs of asphalt, tar, aggregates, and other materials at site of work, and the general level of construction costs

at time that the surfacing is constructed. That the cost of maintenance of the various types of bituminous surfaced roads will vary greatly in various sections, depending largely on the type of construction considering the volume of traffic over such a surface and the weather conditions existing during the use of the surface.

4. That shortage of man-power and equipment, due to war conditions, seems to be a large contributing factor in the highways not being kept to 100 per cent condition. The federal government has refused to authorize new construction except in cases of emergency, and it has only been within the past few months that highway work has been placed on the essential list as determined by the War Man-power Commission. Employees are leaving the service every day to enter the military forces, or accept employment in other positions, and the department has been unable to keep adequate forces in various sections of the state with which to make necessary highway repairs. The state engineer stated that he believed that he would be able to obtain and retain sufficient force with which to do repair work from this time on in view of the fact that many men until now employed in defense construction work are now being released for other employment. That on March 15, 1943, the War Production Board issued an order granting authority for approval of construction of projects involving a cost of not to exceed \$100,000.00.

That many bituminous highways have taken loads far in excess of the statutory limitations, while other roads and even parts of the same highway, have not. That both gravel and bituminous highways are difficult to maintain at the present time; that the cost per mile for surface maintenance of gravel roads is approximately \$225.00, per year, bituminous highways about \$80.00 per mile, and concrete highways about \$53.00 per mile. Mr. Scott stated that he believed it essential to maintain the roads in order to preserve a high per cent of condition, as well as to protect the investment, and that is what he had been trying to do since he became state engineer.

That at present all construction costs of highways are borne entirely by the state and federal government matching for such purpose is not available; that all costs for repairs is borne by the state as in the past, except that for damage done by military forces the federal government will reimburse the state.

5. The committee expresses appreciation for the co-operation and assistance rendered it by Mr. Scott and his staff. The committee also believes that Mr. Scott fully realizes the seriousness of the condition of the bituminous highways in the state, and the importance of having them repaired at the earliest possible date, and will place

these roads in proper repair as soon as possible. He thought that this could be done within the next 60 days, and that he will do his best to keep same in proper condition thereafter.

6. That it has been the policy of the highway department for many years, since the adoption of a longtime highway planning program, to plan construction of bituminous highways in such a manner as to lay the first or thin course the first year and follow the second year with the second or armor course. The first course results in getting people "out of the dust" so to speak, and provides comfortable riding, but such a constructed highway is not adequate for heavy traffic, especially such truck traffic as has come into use during the past few years. There has been a demand from citizens for bituminous surfaced highways all over the state. That instead of going ahead and laying the second or armor course on such highways succeeding years and thus complete the highway for all kinds of traffic, the highway department has for many years attempted to meet these demands and has laid additional miles of first year course, but has been unable to lay the second or armor course on a large percentage of such highways. The result is that in many sections of the state most of the bituminous highways are only one course roads, and are entirely unsuitable for the heavy traffic using them; and which highways are costly to maintain. That if the highway department had been able to follow out its original policy of putting the second or armor course on such highway the second year, Nebraska would not have such a large number of miles of oil surface roads at this time, and a great deal of the state would still be graveled roads, but the bituminous highways would be better highways and less expensive to maintain as the one-course roads.

The committee recognizes that this policy has been a matter of political expedience, to meet the demands of the people of the state for surfaced roads, and that every section of the state has been the recipient of such one-course highways, which has resulted in dustless and easy riding highways over a great part of Nebraska, but the committee questions the wisdom of continuing this policy in future construction in view of the fact that the cost of maintenance of a one-course bituminous highway is more than costs of maintenance of a highway having the second or armor course. Mr. Scott stated that he has tried and will continue to try to carry out the present plan of the highway department in laying the first course one year and then follow it the next year with the second or armor course.

7. Incidentally, the wage scale of highway employees does not appear to be as high as that of adjoining states, but the wages paid are apparently reasonable.

8. That the state highway department does not own adequate equipment to carry on extensive road repair or construction work. It has been the policy of the department to rent such equipment from contractors and others, to avoid a large investment in such equipment, and it appears that in such policy it has been less expensive for the state. Such equipment under present war conditions cannot be purchased. However, many contractors with proper equipment are being released from other defense work and their equipment will no doubt be available to the state very soon. Whether the policy of the state highway department in not purchasing and owning adequate and proper equipment is wise or unwise is a question for debate, as there are two sides to the question. It is a matter, however, that should be seriously considered by the department, to insure expediency in highway construction and repairs.

#### Recommendations

In view of the fact that the highway department is proceeding to make the necessary repairs as rapidly as possible, your committee does not believe any recommendations are necessary or appropriate.

The committee requests that this report be published in the journal; that copy of statement made by Mr. Scott to the committee and transcript of testimony presented to the committee, be filed in the office of the Clerk of the Legislature; that a copy of this report, certified by the Clerk, be sent to Mr. Wardner Scott, State Engineer, for his information.

Dated May 20, 1943.

Committee.

Mr. Gantz moved that the report be adopted.

The motion prevailed.

Amid these earthly damps  
What seem to us but sad, funereal tapers

### Statements for the Journal

Mr. President: The amount on which interest over nine per cent may be charged is too high. Since L. B. 176 and 296, which greatly increase interest rates for other loaning agencies, have been passed, it would be highly discriminatory not to make some provision for banks. Therefore, I vote "Aye".

(Signed) Raecke

Mr. President: I vote against L. B. 43 for these reasons:

(1) The high interest rate of 18% on the first thousand and 12% on the second—of a two thousand dollar loan.

(2) The additional charges permitted by the bill, as that is insurance on property offered as security by the borrower.

(3) Because banks may enter the small loan field under the present law.

(Signed) Osborne

Mr. President: If I had been present, I would have voted for L. B. 43.

(Signed) Neubauer

Mr. President: Had I been present at the session on May 25, 1943, I would have voted "aye" on L. B. 72 and "nay" on L. B. 176.

(Signed) Crossland

Mr. Klaver moved that reading the report be dispensed with and the report printed in full.

The motion prevailed.

#### **STATEMENT—Veto of L. B. 166**

Under our constitution the Governor is called upon to express his approval or disapproval of legislation. His voice in legislation is equivalent to four votes in the legislature, that is, where a vote of 22 may pass a bill, it takes 26 to pass the bill over a veto.

Inasmuch as 29 voted for the bill, it is fair to assume that this bill could be passed over the veto. If this were an ordinary legislative issue that step would be indicated. But this is not such an issue.

This bill proposes to equip the Governor with authority to initiate a program for the development of agricultural industry in the state. He states his conclusion that the plan proposed is impractical.

Manifestly with the Governor in this frame of mind it would be futile to hope for success with the administration of the act in his hands. Under those circumstances the responsibility for failure to make provision for Nebraska to take full advantage of the opportunities which could be ours must rest upon the Governor.

The suggestion that a conference will be called is probably a part of the general movement to rely on federal activities rather than to seek means of building strength into our own state economy. Whatever that may produce remains to be seen. The choice rests with the Governor and he has chosen.

(Signed) C. Petrus Peterson  
J E Conklin

**MESSAGE FROM THE GOVERNOR**

**Veto—Legislative Bill 372**

May 27, 1943.

To the President, the Speaker, and Members  
of the Legislature:

Gentlemen:

I am returning without my signature Legislative Bill No. 372.

This bill, if enacted into law, would be the first step towards the exemption from the payment of gasoline tax of gasoline which is used for industrial purposes. Two years ago the Legislature exempted agricultural gasoline but at that time they refused to exempt the gasoline used by railroad companies, cleaning establishments, stationary engines and for all other industrial purposes. I feel that L. B. 372 is a precedent which should not be established.

Respectfully, submitted,  
(Signed) Dwight Griswold,  
Governor.

#### LEGISLATIVE RESOLUTION 43. Memorial, Charles Ellis Byars

Introduced by Harry E. Gantz, Daniel Garber, E. M. Neubauer, Committee.

Charles Ellis Byars, a member of the Nebraska House of Representatives from 1925 to 1927, died February 2, 1943, at the age of seventy-five years. Mr. Byars was born at Valley, Nebraska, on May 28, 1867 and spent his entire life in that community. In addition to his services in the Legislature he was for thirty-three years Publisher of the Valley Enterprise and had been active in civic, community and church circles.

WHEREAS, the name of Charles Ellis Byars was inadvertently omitted from Legislative Resolution No. 42 of the 1943 Legislative Session; and

WHEREAS, it is the desire of this body to pay its respects to the farmer members who have passed away since the adjournment of the last Legislative Session;

NOW, THEREFORE, BE IT RESOLVED BY THE FIFTY-SIXTH SESSION OF THE NEBRASKA LEGISLATURE:

1. That we pause in our deliberations for a moment in memory of Mr. Byars, who as a pioneer citizen, as a civic leader, and as a legislator, contributed to the development of our state and the institutions we cherish.

2. That this resolution be spread at large on the Journals of this Legislature, and that a copy, suitably engrossed, be prepared and sent by the Clerk of the Legislature to the bereaved family of the deceased as an expression of our respect for his memory.

Mr. Gantz moved that the rules be suspended and the resolution adopted.

The motion prevailed with 29 ayes, no nays, 4 not voting.

The assembly paused a moment to pay silent tribute to the departed member.

#### **MOTION—Thanks to Bill Drafter and Attorney**

#### **SELECT COMMITTEE REPORT**

##### **Intergovernmental Cooperation**

Mr. President: Your committee selected to attend the regional conference of the Council of State Governments held at Chicago beg leave to report.

The Conference was attended by delegations from the midwestern states totaling about 250. The sessions were devoted to the serious and constructive consideration of the problems of the states in this region in the post war period. There was no evidence of any purpose to attempt any determination of what all of these problems will be. On the other hand there was a unanimity of opinion that we know now with certainty what some of the problems will be and that we are not discharging our full duty unless we do now what it is necessary to do if we shall be prepared to deal effectively with those known problems.

Among these problems are:

1. Immediate employment of those who return from the military service in good physical and mental health.
2. Employment for the returning "industrial soldier" who has been employed in essential war production.

3. Rehabilitation of disabled service men.
4. Rapidity of conversion of war industries to production of civilian goods.
5. Effective steps to regain the rights of the states voluntarily surrendered to federal authority during the war.
6. Preparation for demands that the states assume a larger share in the task of maintaining social security because of the staggering load which the federal government will be required to carry as a result of deficit financing of the war.
7. Problems incident to education in manual skills to meet demands of our post war economy.

In the matter of employment it was recognized that industrial conversion to peace time production will require at least a year. To meet the employment problems during that year it was the consensus of opinion that we choose now whether we shall have another P.W.A. period when we decide whether we shall create reserves for state and municipal projects to take up the slack. Reports indicated that many of the states and cities are building very substantial reserves for that purpose. It was also indicated that engineering work is currently done to be ready immediately to begin work on such projects. No one desires to again see what was seen a quarter of a century ago, ex-service men peddling apples on street corners for lack of a job.

Rehabilitation plans do not seem very definite in outline. There is apprehension that in our failure to function as states, federal agencies will find a further opportunity to establish educational activities under federal control.

That a program exists quite apart from the war emergency to federalize education is generally accepted as a fact. The economic problems of finding requisite skills for the highly mechanized post war industries are readily foreseeable. Those who seek federalization of education will quickly take advantage of the absence of state leadership. This will be particularly true if our war economy will result in lowering our present none too high educational standards. Whether it will take the form of subsidization of the state system or the bolder form of an outright federal system of education will perhaps depend on how weak the state system of education is at the end of the war.

If the federal government were to hand back to the states the

economic problems of social security for the aged and devote present assistance funds to education of the youth the job would be all but finished.

The chief recommendations resulting from the session were:

1. Build reserves now.
2. Plan rehabilitation programs now.
3. Protect local schools against federalization.

The following report of the round table session was made and adopted:

".....It is the consensus of this meeting, and it was regularly moved and seconded, that we recommend to the Chairman that he appoint a Committee of Five to work with similar committees, from the East, the South, and the West, to work on a suggested program for postwar reconstruction and development, for submission to the States for their consideration.

"It was also suggested, and regularly moved, and seconded and adopted unanimously, that the postwar problems can only and should be considered by Industry, Labor, and Government, and Agriculture, so the postwar plans should encompass the needs of all. The major postwar problem for which a solution must be found is the problem of full employment of all who want to work.

"And, it was further suggested there is no ready, immediate solution that can be found today, but it is of the utmost importance that all levels of government, industry, labor, and agriculture begin now, in an orderly and systematic fashion, to explore and study all of these problems incident to the return of peace, in order that, as has been so often said in this meeting, that after the winning of the war we shall also win the peace here at home."

Your committee feels that the subject covered by the conference is of major importance to the Legislative, and Executive branch of the government as well as all people of the State of Nebraska and suggest that a more thorough knowledge be had by the members of the Legislature, the Executive branch of the government, and the people of the State of Nebraska that the problems involved may be more equitably met when the time comes.

Respectfully submitted,

(Signed) C. Petrus Peterson,  
Martin J. Mischke,  
H. G. Greenamyre.

### **Supplemental Report**

This supplemental report is made by the members of the committee, Martin J. Mischke and H. G. Greenamyre, in view of the fact a member of the committee, Senator C. Petrus Peterson, was one of the main speakers at the conference and we feel that a supplemental report should be made to the Legislature calling their attention to the very able way in which Senator Peterson represented the Legislature and the people of the State of Nebraska at the conference.

Senator Peterson spoke to the conference in the afternoon of the first day of the session on the subject, "Post-War Problems Facing the State Legislatures". We feel that the response of the conference to Senator Peterson's remarks was far greater than that of any other legislator or speaker at the conference. We also feel that Senator Peterson's address was outstanding, that it contains much which the Legislature of this state and its people can use to guide them in adopting governmental principles and policies.

We have secured and caused to be placed upon the desks of each member of the Legislature a copy of Senator Peterson's address and recommend to you that you read and study the same.

Respectfully submitted,  
(Signed) Martin J. Mischke,  
H. G. Greenamyre
